A guide to buying a used car or minivan features information on the strengths and weaknesses of each model, a safety summary, recalls, warranties, and service tips.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." □ The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

Presents the latest safety ratings, dealer prices, fuel economy, insurance premiums, maintenance costs, and tires of new model automobiles.

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Complete repair manual for all gasoline engined models, including Suburban and Tahoe, Yukon and Yukon XL.

Society documents the empty internal spaces of a variety of London clubs, from the Kurdish Community Centre, to the Masons, the Fabian Society, The Indian Workers Association and the National Association of Flower Arrangers. The photographs provide a resonant and evocative portrait of rich hidden worlds operating within the city, revealing the interior spaces where communities gather. The series explores how people express their identity, their interests and concerns to create their own worlds, expressed through artifact and architecture. The work produces a strange tension between public and private, between beauty and the everyday. Bridget Smith is a photographer who has an on-going interest in architecture and the public realm and the emotional resonance within built form. She has an international reputation for photographing interiors and landscapes devoid of people. These places have often been sites of public leisure (cinema auditoria) or private fantasy (themed hotel rooms, glamour studios). In Society Bridget's work starts shifting towards a preoccupation with people and the worlds they create.
