Most examinations of non-citizens in Canada focus on immigrants, people who are citizens-in-waiting, or specific categories of temporary, vulnerable workers. In contrast, Producing and Negotiating Non-Citizenship considers a range of people whose pathway to citizenship is uncertain or non-existent. This includes migrant workers, students, refugee claimants, and people with expired permits, all of whom have limited formal rights to employment, housing, education, and health services. The contributors to this volume present theoretically informed empirical studies of the regulatory, institutional, discursive, and practical terms under which precarious-status non-citizens – those without permanent residence – enter and remain in Canada. They consider the historical and contemporary production of non-citizen precarious status and migrant illegality in Canada, as well as everyday experiences of precarious status among various social groups including youth, denied refugee claimants, and agricultural workers. This timely volume contributes to conceptualizing multiple forms of precarious status non-citizenship as connected through policy and the practices of migrants and the institutional actors they encounter.

This solutions manual provides the authors' detailed solutions to exercises and problems in physical chemistry. It comprises solutions to exercises at the end of each chapter and solutions to numerical, theoretical and additional problems.

It's the ideal go-to reference for the clinical setting! Compact and easy to use, Manual of Critical Care Nursing, 6th Edition presents essential information on approximately 80 disorders and conditions, as well as concepts relevant to caring for all critically ill patients and functioning in the critical care environment. Award-winning clinical nurse specialists Marianne Baird and Sue Bethel separate the content first by body system and then by disorder, with each disorder including a brief description of pathophysiology, assessment, diagnostic testing, collaborative management, nursing diagnoses, desired outcomes, nursing interventions, and patient teaching and rehabilitation. A concise format presents the material in a way that reflects a practicing nurse's thought processes. Coverage of approximately 80 critical care conditions/disorders includes those most commonly seen in critical care units. Chapter outlines provide easy access to disorders. A portable size makes it ideal for use in the unit or bedside, and is also easy to carry on campus. Unique! Gerontology icon highlights considerations relating to the care of older adults. Unique! Research briefs in special boxes discuss selected research studies for evidence-based patient care. Unique! The latest NANDA-approved nursing diagnoses increase familiarity with NANDA terminology. Appendixes provide quick reference to information needed in the critical care setting. Revised format mirrors a practicing nurse's approach to patient care, making it easier to find information. Newly formatted care plans incorporate diagnoses, interventions, and desired outcomes in a consistent, logical organization. Patient safety alerts and high alerts call attention to issues important to a patient's safety. Unique! Diagnostic Tests tables highlight the definition, purpose, and abnormal findings for each test. Unique! Collaborative Management tables concisely summarize key points while incorporating nationally recognized guidelines. Colored tabs mark the location of each body system, making topics easier to find. Smaller trim size increases portability for use in the unit or bedside, while enhancing readability.

This is a maintenance and repair manual for the DIY mechanic, covering the GM Chevrolet Malibu, 2004-2010 models.
