It will change from blue ON to green AVAIL as the APU (or engines) begin to supply power. Once the external power has been deselected and the green AVAIL is showing in the pb you may disconnect the external power. New Airbus pilots will sometimes find it hard to remember that the green AVAIL does NOT mean that EXT PWR is powering the aircraft.

Airbus A319/320/321 Notes

The Financial Express reports that, as a result of several recent incidents involving IndiGo ' s P&W powered A320neo family jets, the DGCA has now instructed IndiGo to replace all the engines on all its neo jets, which number 98. With 196 engines across the fleet to replace, this sounds like a tough ask by the operator.
