Scientists have long counseled against interpreting animal behavior in terms of human emotions, warning that such anthropomorphizing limits our ability to understand animals as they really are. Yet what are we to make of a female gorilla in a German zoo who spent days mourning the death of her baby? Or a wild female elephant who cared for a younger one after she was injured by a rambunctious teenage male? Or a rat who refused to push a lever for food when he saw that doing so caused another rat to be shocked? Aren ' t these clear signs that animals have recognizable emotions and moral intelligence? With *Wild Justice* Marc Bekoff and Jessica Pierce unequivocally answer yes. Marrying years of behavioral and cognitive research with compelling and moving anecdotes, Bekoff and Pierce reveal that animals exhibit a broad repertoire of moral behaviors, including fairness, empathy, trust, and reciprocity. Underlying these behaviors is a complex and nuanced range of emotions, backed by a high degree of intelligence and surprising behavioral flexibility. Animals, in short, are incredibly adept social beings, relying on rules of conduct to navigate intricate social networks that are essential to their survival. Ultimately, Bekoff and Pierce draw the astonishing conclusion that

there is no moral gap between humans and other species: morality is an evolved trait that we unquestionably share with other social mammals. Sure to be controversial, Wild Justice offers not just cutting-edge science, but a provocative call to rethink our relationship with—and our responsibilities toward—our fellow animals.

An action-packed terrorist thriller from global bestseller Wilbur Smith “ The blonde girl held up her left hand and showed him the shiny grey egg. ‘ This is a special grenade, designed for killing the occupants of a battle tank, ’ she said quietly. ‘ It could blow the fuselage of this aircraft open like a paper bag or kill by concussion any human being within fifty yards. ’ She watched their faces, saw the fear bloom like an evil flower. ” One man wants to rule the world. One man needs to stop him. A passenger plane bound for London is taken hostage by the Action Commando for Human Rights. The passengers ’ only hope is Peter Stride, leader of Thor Command, who uncovers the real leader of this operation, a shadowy figure known only as Caliph with plans as mysterious as they are violent. When Thor Command obtains evidence that Caliph has agents in almost every country, and is behind nearly every major terrorist activity, Peter understands that no one close to him is safe. But he also learns Caliph ’ s ultimate, terrifying goal: control of the entire world. Is Peter capable of doing what it takes to stop Caliph —once and for all?

Inside a cabin tucked away in the Oregon woods a grisly scene awaits investigating police. Arrested soon after for the heinous crime, Vincent Cardoni—a brilliant surgeon with a history of violence and drug abuse—hires Portland's top attorney, Frank Jaffe, to defend him against a seemingly insurmountable pile of evidence. Jaffe's daughter, Amanda—a young lawyer getting her first taste of criminal defense—wonders whether she's representing an innocent man or using her considerable skills to set a monster free. Then

Cardoni disappears under bizarre circumstances. Four years later the slaughter begins again. But is it Cardoni plying his gruesome trade, or the work of another equally brilliant, equally inspired killer? And can Amanda and policeman Bobby Vasquez hunt the elusive maniac down before they themselves fall victim to a psychopath's terrible hunger?

Refusing to eradicate the death penalty, the U.S. has attempted to reform and rationalize capital punishment through federal constitutional law. While execution chambers remain active in several states, Carol Steiker and Jordan Steiker argue that the fate of the American death penalty is likely to be sealed by this failed judicial experiment.

NEW YORK TIMES EDITORS ' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas—and what it tells us about crime and punishment in America “ Remarkably intimate, fair-minded, and trustworthy reporting on the people arguing over the fate of human life. ” —Robert Kolker, New York Times bestselling author of Hidden Valley Road: Inside the Mind of an American Family
WINNER OF THE J. ANTHONY LUKAS WORK-IN-PROGRESS AWARD In 1972, the United States Supreme Court made a surprising ruling: the country's death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty ' s decline, a trend so durable that even in Texas the

punishment appears again close to extinction. In *Let the Lord Sort Them*, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcala, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation's death penalty capital, before becoming a judge on the state's highest court. We meet Danalynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners—many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker—along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institution.

Ault's Wild series is bound to "get your heart racing". (The Charlotte Observer) Bureau of Land Management agent Jamaica Wild is horrified to see a man, nailed to a cross, plummeting down into the Rio Grande Gorge to his death. Ever since she learned about Los Penitentes, a secret, ancient religious group that reenacts Jesus' crucifixion and practices excessive penance, Jamaica's been putting together a book of her research. But when an attempt is made on her life, her mission could also send her over the edge.

Capital Punishment: a Balanced Examination, is a balanced and comprehensive overview of capital punishment. It also probes the constitutional implications of its implementation in America, and ponders some of the hard questions concerning its applications, such as how long capital appeals take.
