ABB is a leading global supplier of medium voltage drives in the range of 250 kW to more than 100 MW. ABB supplies medium voltage variable speed drives for a wide range of applications in the cement, mining and minerals; power; water; metals; marine and chemical, oil and gas industries. They are used to adapt the motor speed to the actual need, thus optimizing energy consumption and reducing CO2 emissions.

The medium voltage ACS2000 drive is an industrial all-rounder that perfectly adapts to a wide variety of standard applications across all industries. Various options and drive configurations allow you to choose a perfect match to increase efficiency of your processes and systems. Boundless versatility makes the ACS2000 sure to fit perfectly into different conditions and environments, including hazardous areas, all over the world.
