The concept of "humors" (i.e. chemical systems regulating human behaviour) became more prominent from the writing of medical theorist Alcmaeon of Croton (C. 540–500BC). His list of humours was longer than just five liquids and included fundamental elements described by Empedocles, such as water, air, earth, etc. Some authors suggest that the concept of "humours" may have origins in Ancient ...

Traced back to Ninja strategies of psychological warfare developed and refined centuries ago in medieval Japan. The Ninja were accomplished in covert operations such as espionage, assassination, and sabotage, and were feared for their ability to break through an adversary's mental defenses to use his fears, insecurities, superstitions, and beliefs against him. Compiled by noted martial artist and scholar Dr. Haha Lung, MIND MANIPULATION is a clear, modern-day guide to devastatingly effective Ninja mental techniques, including:

- Revealing of an enemy's deepest secrets
- The art of implanting false memories
- How to detect when someone is lying
- Visualizations to affect physical health

You will also learn defenses against mind-manipulation techniques

Providing an overview of the lost sciences of Africa and of contributions that blacks have made to modern American science, Blacks in Science presents a range of new information from Africanists. The book also includes bibliographical guides that are crucial to further research and teaching. The lineaments of a lost science are now emerging and we can glimpse some of the once buried reefs of this remarkable civilization. A lot more remains to be revealed. But enough has been found in the past few years to make it quite clear that the

finest heart of the African world receded into the shadow while its broken bones were put on spectacular display. The image of the African, therefore, has been built up so far upon his lowest common denominator. In the new vision of the ancestor, we need to turn our eyes away from the periphery of the primitive to the more dynamic source of genius in the heartland of the African world. -- Ivan Van Sertima

Written by a noted authority on the subject, this book is a lucid, modern-dayguide to effective Ninja mind control techniques.

perfectured by history's greatest military thinkers, such as Sun Tzu, Yoritomo, and Musashi of Japan; and several lesser-known but incredibly influential masterminds. Dr. Haha Lung, author of more than a dozen books on martial arts, presents an all-in-one primer to breaching your enemy's mental defenses. Building on the techniques he presented in the classic *Mind Manipulation*, he shows how to use your enemy's fears, insecurities, hopes, and beliefs against him. Some of the most effective mind control techniques are from forgotten masters of the trade, and are featured here for the very first time. • *Dark Arts: the art of intimidation* • *The Secret of Seven: the Seven Wheels of Power* • *Masters of the East: Including the Craft of the Hircarrah, Vietnamese voodoo* • *Chinese Face: the art of K'ung Ming*

When the World Was Black: The Untold History of the World's First Civilizations (Volume Two of The Science of Self series) has been published in TWO parts. Why two? Because there are far too many stories that remain untold. We had over 200,000 years of Black history to tell – from the southern tip of Chile to the northernmost isles of Europe – and you can't do that justice in a 300-page book. So there are two parts, each consisting of 360 pages of groundbreaking history, digging deep into the story of all the world's original people. Part One covers the Black origins of all the world's oldest cultures and societies, spanning more than 200,000 years of human history.

Part Two tells the stories of the Black men and women who introduced urban civilization to the world over the last 20,000 years, up to the time of European contact. Each part has over 100 helpful maps, graphs, and photos, an 8-page full-color insert in the center, and over 300 footnotes and references for further research. “In this book, you’ll learn about the history of Black people. I don’t mean the history you learned in school, which most likely began with slavery and ended with the Civil Rights Movement. I’m talking about Black history BEFORE that. Long before that. In this book, we’ll cover over 200,000 years of Black history. For many of us, that sounds strange. We can’t even imagine what the Black past was like before the slave trade, much less imagine that such a history goes back

200,000 years or more.” “Part Two covers history from 20,000 years ago to the point of European contact. This is the time that prehistoric cultures grew into ancient urban civilizations, a transition known to historians as the “Neolithic Revolution.”

The first English translation and examination of secret Japanese writings dating from the paleolithic to classical eras • Examines four suppressed and secret texts to discover the deeper truths beneath Japanese mythology • Introduces evidence of ancient civilizations in Japan, the sacred geometry of primitive times, and claims of a non-Earthly origin of the Emperors • Explores how these texts convey the sacred spiritual science of Japan’s Golden Age with parallels in ancient

India, Europe, and Egypt In Japan there are roughly two dozen secret manuscripts originally dating back to the paleolithic era, the age of heroes and gods, that have been handed down by the ruling families for centuries. Rejected by orthodox Japanese scholars and never before translated into English, these documents speak of primeval alphabets, lost languages, forgotten technologies, and the sacred spiritual science. Some even refer to UFOs, Atlantis, and Jesus coming to Japan. Translating directly from the original Japanese, Avery Morrow explores four of these manuscripts in full as well as reviewing the key stories of the other Golden Age chronicles. In the Kujiki manuscript Morrow uncovers the secret symbolism of a Buddhist saint and the origin of a modern prophecy of

apocalypse. In the Hotsuma Tsutaye manuscript he reveals the exploits of a noble tribe who defeated a million-strong army without violence. In the Takenouchi Documents he shows us how the first Japanese emperor came from another world and ruled at a time when Atlantis and Mu still existed. And in the Katakamuna Documents the author unveils the sacred geometries of the universe from the symbolic songs of the 10,000-year-old Ashiya tribe. He also discusses the lost scripts known as the Kamiyo Moji and the magic spiritual science that underlies all of these texts, which enabled initiates to ascend to higher emotional states and increase their life force. Taking a spiritual approach à la Julius Evola to these “parahistorical” chronicles, Morrow shows how they access a higher order of knowledge
