Tony Fitzjohn, part missionary, part madman, has been called “one of the world’s most endangered creatures.” An internationally renowned field expert on African wildlife, he is best known for the eighteen years he spent helping Born Free’s George Adamson return more than forty leopards and lions—including the celebrated Christian—to the wild in central Kenya. Born Wild is the memoir of Fitzjohn’s extraordinary life. It shows how a man driven by an impossibly restless spirit can do almost anything, from being a bouncer in a brothel, to surviving a vicious lion attack, to fighting with the Tanzanian government, to being appointed an Officer of the Order of the British Empire by the Queen. A notorious hell-raiser given to scrapes with bandits, evil policemen, and wicked politicians, who has been shot at by poachers and chewed up by lions, Fitzjohn is also a wonderful raconteur. Shenanigans aside, he belongs to that rare species of humans who have sought refuge and meaning in a life truly dedicated to the restoration of the animal kingdom. Many times Tony Fitzjohn has put his life on the line for the cause in which he believes. Born Wild is the story of that passion.

This is a story of passion, adventure and skulduggery on the frontline of African conservation. Following Tony Fitzjohn's journey from London bad boy to African wildlife warrior, the heart of the story is a series of love affairs with the world's most beautiful and endangered creatures.

NEW YORK TIMES BESTSELLER • “A stirring tale of a rare bond formed between humans and an animal.”—Time Two men. One baby lion. What could go wrong? A Lion Called Christian tells the remarkable story of how Anthony “Ace” Bourke and John Rendall, visitors to London from Australia in 1969, bought a boisterous lion cub in the pet department of Harrods. For several months, the three of them shared a flat above a furniture shop on London’s King’s Road, where the charismatic and intelligent Christian quickly became a local celebrity, cruising the streets in the back of a Bentley, popping in for lunch at a local restaurant, even posing for a fashion advertisement. But the lion cub was growing up—fast—and soon even the walled church garden where he went for exercise wasn’t large enough for him. How could Ace and John avoid having to send Christian to a zoo for the rest of his life? A coincidental meeting with English actors Virginia McKenna and Bill Travers, stars of the hit film Born Free, led to Christian being flown to Kenya and placed under the expert care of the “father of lions” George Adamson. Incredibly, when Ace and John returned to Kenya to see Christian a year later, they received a loving welcome from their lion, who was by then fully integrated into Africa and a life with other lions. A video of this reunion has become a YouTube classic. Originally published in 1971, and now fully revised and updated with more than 50 photographs of Christian from cuddly cub in London to magnificent lion in Africa, A Lion Called Christian is a touching and uplifting true story of an indelible human-animal bond. It is destined to become one of the great classics of animal literature.

Feel the magic of the wild come alive with the book you're holding in your hand. Come, walk with the author through mesmerizing wildlife landscape - from the length and breadth of India's forests and sanctuaries in Madhya Pradesh, Bihar, Rajasthan, the Western Ghats, Karnataka and Orissa to Rwanda, Namibia, Botswana and South Africa. Through brilliantly vivid experiences Swati recounts fascinating insights into wildlife sighting and conservation efforts around the world, covering a wide array of wildlife including tigers and gorillas, lions and elephants, sloth bears, sea turtles and sharks, crocodiles, pelicans and penguins.

A NEW YORK TIMES NOTABLE BOOK OF 2020 "In this superbly articulate cri de coeur, Safina gives us a new way of looking at the natural world that is radically different."—The Washington Post New York Times bestselling author Carl Safina brings readers close to three non-human cultures—what they do, why they do it, and how life is for them. A New York Times Notable Books of 2020 Some believe that culture is strictly a human phenomenon. But this book reveals cultures of other-than-human beings in some of Earth's remaining wild places. It shows how if you're a sperm whale, a scarlet macaw, or a chimpanzee, you too come to understand yourself as an individual within a particular community that does things in specific ways, that has traditions. Alongside genes, culture is a second form of inheritance, passed through generations as pools of learned knowledge. As situations change, social learning—culture—allows behaviors to adjust much faster than genes can adapt. Becoming Wild brings readers into intimate proximity with various nonhuman individuals in their free-living communities. It presents a revelatory account of how animals function beyond our usual view. Safina shows that for non-humans and humans alike, culture comprises the answers to the question, “How do we live here?” It unites individuals within a group identity. But cultural groups often seek to avoid, or even be hostile toward, other factions. By showing that this is true across species, Safina illuminates why human cultural tensions remain maddeningly intractable despite the arbitrariness of many of our differences. Becoming Wild takes readers behind the curtain of life on Earth, to witness from a new vantage point the most world-saving of perceptions: how we are all connected.

On a hot July night on Cape Cod, at the age of 14, Brodeur became a confidante to her mother's affair with her husband's closest friend. Malabar came to rely on her daughter to help, but when the affair had calamitous consequences for everyone involved, Brodeau was driven into a precarious marriage of her own, and then into a deep depression. In her memoir she examines how the people close to us can break our hearts simply because they have access to them, and the lies we tell in order to justify the choices we make. -- adapted from jacket

Describes the relationship between Joe Camp and his horse Cash as he learns how to care and relate to the animal and to horses as a species.

Nature Conservation in Southern Africa. Morality and Marginality: Towards Sentient Conservation? proposes ways to study linkages between the marginality, subjectivity and agency of both human and animals, promoting a new approach to conservation referred to as 'sentient conservation'.

The restored true crime classic. The story of Bobby Nauss, an outlaw motorcycle gang member, from the host of America’s Best Crime Magazine podcast. Born to Be Wild recounts the criminal career of Bobby Nauss, a member of the Warlocks, an infamous Pennsylvania motorcycle gang, who was convicted of trafficking in drugs, killing a woman, and raping another, and who escaped from a maximum security prison. Nauss was featured on the second episode ever of America’s Most Wanted. Originally published in 1994, Born to Be Wild became a Main Selection of Doubleday’s Book of the Month Club and was translated into German under the title: Der Wilde. At that point, Barry Bowe quit writing for the next twenty years to devote his life to betting on racehorses and delivering pizza. In 2014, the passion to create returned and he revised the original version of Born to Be Wild by restoring the 40,000 words that he’d been forced to delete by the publisher to conserve space the first time around. Bowe is also the author of the Uber Driver series featuring The Dead Stripper and Gentlemen Prefer Blondes

This book traces the emergence of wildlife policy in colonial eastern and central Africa over the course of a century. Spanning from imperial conquest through the consolidation of colonial rule, the rise of nationalism, and the emergence of neocolonial and neoliberal institutions, this book shows how these fundamental themes of the twentieth century shaped the relationships between humans and animals in what are today Kenya, Tanzania, Uganda, Zambia, and Malawi. A set of key themes emerges—changing administrative forms, militarization, nationalism, science, and a relentlessly broadening constituency for wildlife. Jeff Schauer illuminates how each of these developments were contingent upon the colonial experience, and how they fashioned a web of structures for understanding and governing wildlife in Africa—one which has lasted into the twenty-first century.
