"Sheer pleasure. . . . Wonderfully entertaining."--Chicago Sun-Times Acclaimed by Norman Mailer more than twenty years ago as "possibly the only American writer of genius," William S. Burroughs has produced a body of work unique in our time. In these scintillating essays, he writes wittily and wisely about himself, his interests, his influences, his friends and foes. He offers candid and not always flattering assessments of such diverse writers as Ernest Hemingway, F. Scott Fitzgerald, Joseph Conrad, Graham Greene, Jack Kerouac, Allen Ginsberg, Samuel Beckett, and Marcel Proust. He ruminates on science and the often dubious paths into which it seems intent on leading us, whether into outer or inner space. He reviews his reviewers, explains his famous "cut-up" method, and discusses the role coincidence has played in his life and work. As satirist and parodist, William Burroughs has no peer, as these varied works, written over three decades, amply reveal.

With the help of Spectrum Algebra for grades 6 to 8, your child develops problem-solving math skills they can build on. This standards-based workbook focuses on middle school algebra concepts like equalities, inequalities, factors, fractions, proportions, functions, and more. Middle school is known for its challenges—let Spectrum ease some stress. Developed by education experts, the Spectrum Middle School Math series strengthens the important home-to-school connection and prepares children for math success. Filled with easy instructions and rigorous practice, Spectrum Algebra helps children soar in a standards-based classroom!

Five great poets of the T'ang dynasty (eighth and ninth centuries A.D.) are represented in this collection: Wang Wei, Li Po, Tu Fu, Li Ho, and Li Shang-Yin. Each poet is introduced by the translator and represented by a selection that spans the poet's development and career. These constitute some of the greatest lyric poems ever written.

A tale inspired by the affair between Sigmund Freud and his sister-in-law depicts the struggles of Minna Bernays, an educated woman uninterested in conventional women's roles who becomes fascinated with her brother-in-law's pioneering theories.

OGT Exit Level Reading Workbook prepares students for the reading portion of the Ohio Graduation Test. Samples from similar tests provide plenty of practice and students learn to take multiple choice tests on their comprehension of what they read. Students learn to evaluate their own short answers to targeted questions, and learn from other students' responses to similar questions. This book is suitable for students in all states who need to take a reading exam for graduation or course completion.

Tutorial Guide to AutoCAD 2020 provides a step-by-step introduction to AutoCAD with commands presented in the context of each tutorial. In fifteen clear and comprehensive chapters, author Shawna Lockhart guides you through all the important commands and techniques in AutoCAD 2020, from 2D drawing to solid modeling and finally finishing with rendering. In each lesson, the author provides step-by-step instructions with frequent illustrations showing exactly what appears on the AutoCAD screen. Later,

individual steps are no longer provided, and you are asked to apply what you've learned by completing sequences on your own. A carefully developed pedagogy reinforces this cumulative-learning approach and supports you in becoming a skilled AutoCAD user. Tutorial Guide to AutoCAD 2020 begins with three Getting Started chapters that include information to get readers of all levels prepared for the tutorials. The author includes tips that offer suggestions and warnings as you progress through the tutorials. Key Terms and Key Commands are listed at the end of each chapter to recap important topics and commands learned in each tutorial. Also, a glossary of terms and Commands Summary list the key commands used in the tutorials. Each chapter concludes with end of chapter problems providing challenges to a range of abilities in mechanical, electrical, and civil engineering as well as architectural problems.

Inventive, hilarious and joyously colorful, this fill-in journal was designed to help kids capture nearly everything that's uniquely rad about them. With design-savvy, yet completely kid-friendly illustrations, they're asked to draw or write about a bunch of interesting things -- like what their hair looks like, what their band name would be, what they'd bring to outer space, and how they feel about lightning, lizards and pickles. There may or may not be a place for super-secret stuff inside the book jacket. Whether kids complete their entire compendium on a rainy day, or finish it over a year, it'll become a treasure to look back on and smile. Ideal for the holidays, rainy days and happy occasions of all kinds, this is an imagination-building gift will engage kids for hours on end
