Cowstails and Cobras II is a rewrite of Karl Rohnke's classic guide to games, initiative problems, and adventure activities. It contains much-and-more of what made up the original standard in Adventure Education, including sample curricula and leadership/debriefing skills.

Incidents involving rescue from road vehicles are dramatically increasing in frequency. There are some 3500 deaths on the road each year, with 35,000 serious injuries. Modern motor vehicles are becoming safer for occupants, due to advancement in technology, so persons are more likely to survive high impact speeds, but are also more likely to become entrapped. The Fire and Rescue Service, as the primary rescue service, requires national guidance to ensure a similar standard of response anywhere in the UK. This manual is designed to highlight current best practice with regard to vehicle rescue techniques and first responder trauma care. Each chapter forms an independent reference source, but the publication as a whole forms a complete guide. Chapters cover: vehicle design and construction; dealing with incidents; safety procedures; operational procedures; extrication equipment; medical considerations and trauma care; Integrated Personal Development System (I.P.D.S.). Appendices cover: Highways Agency/Fire and Rescue Service memorandum of understanding; training and general information; and emergency services personnel (ESP) aide m moire. The CD-ROM, "Vehicle extrication techniques", is a multi media guide to rescue tool handling and extrication techniques.

This manual is packed with practical lessons, on-the-ground tricks, training drills and equipment suggestions for the solo tracker on up to a multiagency tracking operation. Learn from a 30-year veteran how to find and follow tracks through any terrain; assess the age of tracks; relocate the trail after it's gone missing; foil every effort to throw off your pursuit; coordinate a four-man team while tracking armed fugitives; set up and run large tracking operations, use the latest high-tech gear to find fugitives and more.
