In this way, women empowerment itself acts as a tool for societal and psychospiritual change. After all, when strong women join together, who can stop them? Read *The Millionth Circle: How to Change Ourselves and the World* and find... A tool for creating positive change Words of insightful and powerful feminine wisdom A book for women everywhere Readers of *Wild Mercy*, *If Women Rose Rooted*, *Women Rowing North*, or *Warrior Goddess Training* will love the inspiring message and call to action in Jean Shinoda Bolen's *The Millionth Circle*.

At some point after fifty, every woman crosses a threshold into the third phase of her life. As she enters this uncharted territory -- one that is generally uncelebrated in popular culture -- she can choose to mourn what has gone before, or she can embrace the juicy crone years. In this celebration of Act 3, Jungian analyst Jean Shinoda Bolen names the powerful new energies and potentials, or archetypes, that come into the psyche at this momentous time, suggesting that women getting older have profound and exciting reasons for welcoming the other side of fifty. As Bolen has explained in her remarkable body of work, there are goddesses in every woman, deep archetypal sources of wisdom, authenticity and spirituality that, once tapped, energize us and give us a sense of meaning and self-acceptance. The knowledge of which archetypes are active within us at each phase of life--maiden, mother (or matron), and crone supports us in making choices that are true to who we are instead of conforming to others' ideas of who we should be. In Bolen's bestselling *Goddesses in Everywoman*, the classic work of the women's spirituality movement, the Greek goddesses personified these archetypes as they affected the first two phases of a woman's adult life. Now she explains that in the third stage, marked physiologically by menopause, there emerges a whole new cast of inner archetypes that a woman can draw on for guidance, creativity, personal integration, and joy. Once we learn to recognize these forces, we can feel empowered and wise, introspective and spiritual, sexually bold and full of mirth. For it is in the "wisewoman" years, when a woman has lived long enough to resolve the tasks of younger and middle adulthood, that she can fully and authentically become who she deeply is. The generation of women who are approaching or who have reached the crone years is historically unique. Influenced by the women's

movement, they have benefited from educational opportunities, women's support networks, and economic resources as excellent preparation for decades of active postmenopausal life. By recognizing the goddess archetypes that emerge in this phase, women of this special generation will be enabled to transform the crone years into the best years of their lives.

In *Moving Toward the Millionth Circle*, psychiatrist, activist and best-selling author Jean Bolen inspires women and others to follow a path with soul, to take on a personal assignment that contributes to change, while relying on the support of a circle or circles of likeminded individuals. The metaphoric millionth circle is the tipping point into a post-patriarchal era, based on the premise that when a critical number of people change their perceptions and behavior, a new era can begin. The strength that comes from those circles feeds the activism and the activism makes the circles stronger. *Moving Toward the Millionth Circle* is about heart-centered activism. Drawn from Dr. Bolen's work with the United Nations and her experiences with His Holiness the Dalai Lama, and women from all walks of life all around the world, this book is poetical, practical and political.

Examines coincidental events that individuals find significant, but which cannot be rationally explained, suggesting ways of using the resulting feelings of universal unity in Jungian therapies and Taoist introspection

Describes how serious illness can actually be a soul-transforming experience that eliminates neurosis and leads to the essential truths of life.

Myths are fascinating stories that become even more intriguing when we realize that they can reveal intimate truths about ourselves and others. Jean Shinoda Bolen brings the Greek pantheon to life as our inner archetypes and applies the power of myth to our personal lives. Once we understand the natural progression from myth to archetype to personal psychology, and realize that positive gifts and negative tendencies are qualities associated with a particular goddess within, we gain powerful insights. Depending on which goddess is more active within, one woman might be more committed to achieving professional success, while another more fulfilled as a wife and mother. Bolen teaches women how to decide which qualities to cultivate and which to overcome, and how to tap the power of these enduring archetypes to become a better heroine in their own life stories.
