When Jean Sasson ' s book Princess: Life Behind the Veil in Saudi Arabia was published, it became an immediate international bestseller. It sold to 43 countries and spent 13 weeks on The New York Times bestseller list. Now, in this long-awaited, compelling new book, Sasson and the Princess ' Sultana ' return to tell the world what it means to be a Saudi woman today. Through advances in education and with access to work, Saudi women are breaking through the barriers; they are becoming doctors, social workers, business owners and are even managing to push at the boundaries of public life. Major steps forward have, undoubtedly, been made. But this is not the whole story. Sadly, despite changes in the law, all too often legal loopholes leave women exposed to terrible suppression, abuse and crimes of psychological and physical violence. For many, the struggle for basic human rights continues. This fascinating insight will include personal stories of triumph and heartbreak, as told to Princess 'Sultana', her eldest daughter, and author Jean Sasson. Each of these stories will offer the reader a glimpse into different aspects of Saudi society, including the lives of the Princess, her daughter and other members of the Al-Saud Royal family.

A second mystery for thirteen-year-old Agatha Oddy — a bold, determined heroine, and the star of this stylish new detective series.

An heir to Southern California's most fabled vineyard, Donovan Drake works as hard as he plays. Betrayed by love in the past, the consummate bachelor prides himself on never committing to one woman. But Marissa Hayes isn't just any woman. And Donovan has just two weeks to show the guarded, voluptuous beauty exactly what she's been missing.... Falling for her boss is number one on Marissa's list of don'ts. But from the moment she experiences Donovan's intoxicating touch, her heart tells her something else. Slowly but surely, his seduction is breaking down her defenses. Is their passion as fleeting as her brief stay at Donovan's fabulous resort? Or have they found a love as timeless as the finest wine—strong enough to withstand anything, even a threat from Marissa's past?

Building on prior RAND research analyzing the motives, drivers, and capabilities of the principal extremist groups operating in the Philippines, southern Thailand, and Indonesia, this study examined the historical roots of militancy in these countries, the development and perpetuation of extremist ideological frameworks, and national and international government response efforts.

Rob Reiner's enormously funny and moving When Harry Met Sally ... -- a romantic comedy about the difficult, frustrating, awful, funny search for happiness in an American city, where the primary emotion is unrequited love -- is delighting audiences everywhere. Now, the complete screenplay is published. Written by Nora Ephron -- author of screenplays for Silkwood and Heartburn (from her own best-selling novel) -- When Harry Met Sally...is as hilarious on the page as it is on the screen. The book includes an introduction by the author.

This book provides glimpses into contemporary research in information systems & technology, learning, artificial intelligence (AI), machine learning, and security and how it applies to the real world, but the ideas presented also span the domains of telehealth, computer vision, the role and use of mobile devices, brain – computer interfaces, virtual reality, language and image processing and big data analytics and applications. Great research arises from asking pertinent research questions. This book reveals some of the authors ' " beautiful questions " and how they develop the subsequent " what if " and " how " questions, offering readers food for thought and whetting their appetite for further research by the same authors.

Tirumantiram is the seminal text of Saiva-Siddhanta which has produced a galaxy of saints and has powerfully influenced the day-to-day life of millions in South Indiageneration after generation. Its author Tirumular was according to legend a yogi who took compassion on a herd of cattle that had lost their shepherd and entering the body of the shepherd by his yogic power continued to look after the flock. So when we find in this great classic such splendid gems as " " Anbe Sivam – God is Love – we realize that the great yogi preached only what he lived. His fervent message that the ultimate Reality is One and all of us belong to the same family has special relevance to us moderns who have lost our moorings of faith and are wandering between two worlds one dead the other powerless to be born. Apart from the literary merits Tirumantiram blazes a number of spiritual trails any of which the aspirant can follow with the full confidence that the Goal Supreme is within the reach.

Early European histories of India frequently reflected colonialist agendas. The idea that Indian society had declined from an earlier Golden Age helped justify the colonial presence. It was said, for example, that modern Buddhism had fallen away from its original identity as a purely rational philosophy that arose in the mythical 5th-century BCE Golden Age unsullied by the religious and cultural practices that surrounded it. In this book Robert DeCaroli seeks to place the formation of Buddhism in its appropriate social and political contexts. It is necessary, he says, to acknowledge that the monks and nuns who embodied early Buddhist ideals shared many beliefs held by the communities in which they were raised. In becoming members of the monastic society these individuals did not abandon their beliefs in the efficacy and the dangers represented by minor deities and spirits of the dead. Their new faith, however, gave them revolutionary new mechanisms with which to engage those supernatural beings. Drawing on fieldwork, textual, and iconographic evidence, DeCaroli offers a comprehensive view of early Indian spirit-religions and their contributions to Buddhism—the first attempt at such a study since Ananda Coomaraswamy's pioneering work was published in 1928. The result is an important contribution to our understanding of early Indian religion and society, and will be of interest to those in the fields of Buddhist studies, Asian history, art history, and anthropology.

This book gathers high-quality research papers presented at the International Conference on Computing in Engineering and Technology (IC CET 2020) [formerly ICCASP], a flagship event in the area of engineering and emerging next-generation technologies jointly organized by the Dr. Babasaheb Ambedkar Technological University and MGM ' s College of Engineering in Nanded, India, on 9-11 January 2020. Focusing on next-generation information processing systems, this second volume of the proceedings includes papers on cloud computing and information systems, artificial intelligence and the Internet of Things, hardware design and communication, and front-end design.
