The processes of manufacture and assembly are based on the communication of engineering information via drawing. These drawings follow rules laid down in national and international standards. The organisation responsible for the international rules is the International Standards Organisation (ISO). There are hundreds of ISO standards on engineering drawing because drawing is very complicated and accurate transfer of information must be guaranteed. The information contained in an engineering drawing is a legal specification, which contractor and sub-contractor agree to in a binding contract. The ISO standards are designed to be independent of any one language and thus much symbology is used to overcome any reliance on any language. Companies can only operate efficiently if they can guarantee the correct transmission of engineering design information for manufacturing and assembly. This book is a short introduction to the subject of engineering drawing for manufacture. It should be noted that standards are updated on a 5-year rolling programme and therefore students of engineering drawing need to be aware of the latest standards. This book is unique in that it introduces the subject of engineering drawing in the context of standards.

this book includes Geometrical Drawing & Computer Aided Drafting in First Angle Projection. Useful for the students of B.E./B.Tech for different Technological Universities of India. Covers all the topics of engineering drawing with simple explanation.

The new book Fundamentals of Engineering Drawing for polytechnics. For 1 yr polytechnic students of all states of India. In accordance with the Bureau of Indian Standards (BIS) SP :46-1988 and IS :696-1972. Simple and Lucid Language with systematic development of subject matter. More than 2000 illustrations were given with proper explanation.

For all students and lecturers of basic engineering and technical drawing The new edition of this successful text describes all the geometric instructions and engineering drawing information, likely to be needed by anyone preparing or interpreting drawings or designs. There are also plenty of exercises to practise these principles.

Lured by the pitch - All marriages are made in heaven but some are delayed on earth: We endeavor to hasten them all - Priya goes to Renuka Marriage Bureau. Scanning the prospects, when she spotted Venu, whom she slighted long ago, she rushes to him to bring about a dramatic encounter. What brought about Priya's change of heart to seek her former suitor and how Venu responds to his old flame's fresh overtures lend suspense to their romance in this eclectic novella.
