This book constitutes the refereed proceedings of the Third International Euro-Par Conference, held in Passau, Germany, in August 1997. The 178 revised papers presented were selected from more than 300 submissions on the basis of 1101 reviews. The papers are organized in accordance with the conference workshop structure in tracks on support tools and environments, routing and communication, automatic parallelization, parallel and distributed algorithms, programming languages, programming models and methods, numerical algorithms, parallel architectures, HPC applications, scheduling and load balancing, performance

evaluation, instruction-level parallelism, database systems, symbolic computation, real-time systems, and an ESPRIT workshop.

From the author of *How Emotions Are Made*, a myth-busting primer on the brain, in the tradition of *Seven Brief Lessons on Physics* and *Astrophysics for People in a Hurry*

With its emphasis on quality ingredients, nuanced global flavors, and sumptuous presentation, the original *GOURMET SLOW COOKER* inspired discerning home cooks to dust off-and fall in love with-their slow cookers again. Back by popular demand, Lynn Alley serves a generous second helping of sophisticated yet easy-to-prepare slow-cooker recipes, this time with a focus on regional comfort food. Packed with classic and innovative dishes designed to delight family and guests alike, *THE GOURMET SLOW COOKER: VOLUME II* will satisfy fans' hunger for new recipes-and encourage even more busy home cooks to join the bandwagon. Reviews Recommended for "the cook who wants ease, but with more flavor than the bland crock-pot cuisine your mother made."-Portland Oregonian

Whether it is bottle- or breast-feeding, cribs or co-sleeping, getting back to the office or staying home with the kids, best friends Sara Ellington and Stephanie Triplett, the team behind the popular book and radio show *The Mommy Chronicles*, rarely choose the same option. Lucky for us, in *The Must-Have Mom Manual*, they discuss the pros and cons of every aspect of child raising, from pacifiers to potty training, bedtimes to birthday parties, day care to Disney World. Their philosophy is simple: There is no one right way to be a mom. Sara and Stephanie just want to make every mother 's life easier. So, with a healthy dose of humor, they share their parenting triumphs and disasters, marital challenges, public meltdowns, and all the knowledge they 've gained as authors and radio show hosts, with hundreds of tips for moms everywhere.

- 10 things not to feel guilty about – because every mother feels bad about something
- Answers for new moms about leaving the house with baby for the first time, postpartum depression, accepting help, car seats, and dining out with baby
- Sticky parenting decisions – including the consensus on little white lies, family nudity, “correcting” homework, and leaving your child in the car (just for a second)
- Managing your household and how to conquer the clutter with special strategies for organizing every room in your home
- Products for moms, the best mom-gear, cleaning products – including technology, gadgets, stores, and places to take the kids
- Marriage 911, sleep or sex?, how to keep the home fires burning – plus four people who can sabotage your sex life

Covering “all things Mommy,” Sara and Stephanie are real mothers delivering real insights, with real laughs, as they tackle and celebrate the challenges and drama of motherhood in the best, easiest, most mom-friendly guide to life with kids today.

Euro-Librarianship focuses on strategies for working toward cooperation between libraries throughout Europe and the United States to provide the best access and information to research materials as possible. Chapters by several authors in their original languages (with English abstracts) give this book a unique international appeal. Common difficulties such as fiscal constraints and rising book and serial prices are discussed. Stressing enhanced communication and shared responsibilities, this new volume helps bring libraries of all countries closer to the resource sharing capabilities that allow scholars and researchers much wider access to information than is available today. In this timely new book, many of the papers that were presented at the Second Western European Specialists (WESS) International Conference are brought together to be read and studied by everyone.

The consumer price index (CPI) measures the rate at which prices of consumer goods and services change over time. It is used as a key indicator of economic performance, as well as in the setting of monetary and socio-economic policy such as indexation of wages and social security benefits, purchasing power parities and inflation measures. This manual contains methodological guidelines for statistical offices and other agencies responsible for constructing and calculating CPIs, and also examines underlying economic and statistical concepts involved. Topics covered include: expenditure weights, sampling, price collection, quality adjustment, sampling, price indices calculations, errors and bias, organisation and management, dissemination, index number theory, durables and user costs.
