The Luftwaffe's Messerschmitt Bf109 single-seat fighter was the main combat adversary of the RAF's Hurricane and Spitfire fighters in the Battle of Britain. It could climb and dive faster than the RAF fighters and its competitive edge in combat was helped by its direct injection fuel system. It also had the edge on both the Spitfire and Hurricane when it came to the punch delivered by its array of machine guns and shell-firing cannon. Its formidable performance and potent armament made the Bf109, arguably, the best fighter of the Battle. This book covers the history of the '109, restoration to flight, the views of owners, pilots and engineers, operating and servicing. There are data boxes covering a wealth of '09 facts and figures, and interviews with owners and pilots (both WW2 Luftwaffe pilots and modern day owner-pilots). Photographs and illustrations are drawn from a variety of sources, including Luftwaffe official wartime manuals, official and private archives, restoration projects in the UK and overseas.

Rod set out to create a new kind of owner's workshop manual--friendly, easy to understand, yet more detailed than any other manual: this book is the result, Rod stripped down an MX-5 ('Miata' USA/'Eunos' Japan) in a domestic garage using ordinary tools and, in the process, took over 1500 step-by-step photographs. The result is a superbly detailed text which passes on to the reader every detail of important jobs, including how problems can be overcome without resorting to special tools.

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.
