Chevy L33 Engine Specs - Summit Racing Equipment

The GM / Chevy L33 engine has two aluminum heads with 2 valves per cylinder (16 in total) and a single camshaft driven by the crankshaft via a chain. The intake port has a cathedral shape with 210 cc intake runner volume and the exhaust has a "D" shape with 75 cc exhaust runner volume.

GM / Chevy L33 Vortec 5300 HO (5.3L) engine specs, review ...

In 2007 the L33 had a bore of 3.78 inches and a stroke of 3.62 inches. An engine's bore is the diameter of its cylinders, and its stroke is the distance its pistons travel inside the cylinder. Because displacement refers to the total amount of air displaced by the pistons inside the cylinders, the larger the bore and stroke, the larger and more powerful the engine can be.

GM L33 Engine Specs | It Still Runs

L33 Engine Specs. (VIN "B") The information listed here is for the stock engine. Performance Specifications. Compression Ratio. 9.9:1. Horsepower Rating. 310 hp. Torque Rating.

L33 Engine Specs (VIN "B") - PSI | Standalone Wiring Harness

The L33 engine block has a 3.780-inch bore diameter. The cylinders can be bored to the LS1/LS6's 3.905 inches, but it's recommended that you leave them as thick as possible with common.020 / .030 / .040 in. oversize forged pistons. You can make 700+ hp with a couple of simple upgrades like head studs and LS9 head gaskets.

L33 5.3L Engine Upgrade Guide: Expert Advice for L33 Mods ...

When available these engine will have about a \$1000 premium over a standard LM7 and are rated around 315-330HP. In comparison I can put a Z06 Cam & Valve Springs in a standard LM7 for +\$700 and make around 360HP. The L33 is 80lbs lighter than a standard iron block Vortec.

-5.3L - LM4, LM7, L33, L59 — BD Turnkey Engines LLC

As the standard engine in the fifth-generation Camaro SS and C6 Corvette, the high-revving, deep-breathing LS3 6.2L is poised to go down in history as one of Chevrolet's best and most versatile engines. PART NO. 19369326 430 HP @5900 RPM 425 LB/FT @4600 RPM

LS3 Crate Engine: 19369326 | Performance - Chevrolet

GM does not break out internal costs, so it is not known how the Chinese engines compare in price to those from Tonawanda. Fedewa said an engine of this sort typically cost about \$800 to \$900 to make.

Not-so-secret weapon: GM's Chinese engines - The New York ...

The L33 also had a specific camshaft not shared with any other engine, specs @ .050 duration are: 193 duration, .482 lift, 116 LSA. As a result, power increased by 15 hp (11 kW), to 310 hp (230 kW) and 335 lb-ft (441 N-m). It was only available on extended cab 4WD pickup trucks. Only 25% of trucks made in 2005 had the L33 engine.

General Motors LS-based small-block engine - Wikipedia

Download Specs Based on a new generation of large-displacement four-cylinder engines that was designed for greater efficiency, GM proprietary Computational Fluid Dynamics (CFD) analysis techniques were used to develop an all-new combustion system with a higher compression ratio. ... contact form is intended for current and prospective U.S. and ...

General Motors Engine Guide, Specs, Info | GM Authority

GM has continued to refer to its modern V-8 engine family as Gen III and Gen IV, but to the enthusiasts who quickly grasped the tremendous performance potential of the engines, every engine of the platform is nicknamed "LS." See how LS crate engines compare in horsepower, torque, and other technical specifications.

LS Crate Engine Comparison | Performance - Chevrolet

5.3 Vortec Performance Specs The original 5.3L Vortec, the LM7, produced 270 horsepower and 315 lb-ft of torque. Before the Gen III engine design was phased out from the 5.3 L Vortec offering, the L33, marketed as the high output version, was reaching 310 horsepower and 335 lb-ft of torque.

5.3L Vortec Engine Specs - HCDMAG.com

They are known as the EcoTec3 5.3L engines. These engines are all-aluminum and use Active Fuel Management (AFM), Variable Valve Timing (VVT), and are Flex Fuel Capable (E85). The engines also use direct fuel injection technology, which shoots fuel directly into the combustion chamber instead of the intake runner.

Chevy L83 and L8B Engine Specs - Summit Racing Equipment

The L8T is meant for grunt work, thanks to an impressive 464 lb-ft. of peak torque that arrives 200 rpm sooner (and is 22 percent more) than GM's previous 6.0L V-8 HD gasoline engines. Direct injection technology provides precise fuel control and enables a higher compression ratio that broadens the torque curve and contributes to a power ...
