Healthcare is an industry that has seen great advancements in personalized services through big data analytics. Despite the application of smart devices in the medical field, the mass volume of data that is being generated makes it challenging to correctly diagnose patients. This has led to the implementation of precise algorithms that

# Access Free Gujarat Technological University

can manage large amounts of information and successfully use smart living in medical environments. Professionals worldwide need relevant research on how to successfully implement these smart technologies within their own personalized healthcare processes. Applications of Deep Learning and Big IoT on Personalized

# Access Free Gujarat Technological University

Healthcare Services is a pivotal reference source that provides a collection of innovative research on the analytical methods and applications of smart algorithms for the personalized treatment of patients. While highlighting topics including cognitive computing, natural language processing, and supply chain optimization,

# Access Free Gujarat Technological University

this book is ideally designed for network designers, analysts, technology specialists, medical professionals, developers, researchers, academicians, and post-graduate students seeking relevant information on smart developments within individualized healthcare.

# Access Free Gujarat Technological University

This book is specially written for students of Computer Engineering (CE) and Information Technology. Also every one with interest in Database Management System can refer this book to get the knowledge about RDBMS. It covers virtually most of core features and some of the advanced features of RDBMS for

# Access Free Gujarat Technological University

administrator development including more than hands on examples tested through Oracle 9i. Most of code samples are presented in easy to use through Oracle. Throughout the book most of the features are explained through syntax and examples to develop state-of-the-art Database using advanced concepts like E.R. Modeling,

# Access Free Gujarat Technological University

Normalization, Transaction management,  
Security and other authentication features.

Microsoft Access is a Window based program created by Microsoft. It helps you store & manage a large collection of information. A systematically arranged database helps you manage the stored

# Access Free Gujarat Technological University

information in an efficient way so that It can access quickly whenever needed. You can easily create such a database using Access. A good Database design ensure that you will be able to perform various tasks on it efficiently and accurately and without any hindrance.

The International Conference on Signals, Systems and Automation (ICSSA 2011) aims to spread awareness in the research and academic community regarding cutting-edge technological advancements

# Access Free Gujarat Technological University

revolutionizing the world. The main emphasis of this conference is on dissemination of information, experience, and research results on the current topics of interest through in-depth discussions and participation of researchers from all over the world. The objective is to provide a platform to scientists, research scholars, and

# Access Free Gujarat Technological University

Ahmedabad  
industrialists for interacting and exchanging ideas in a number of research areas. This will facilitate communication among researchers in different fields of Electronics and Communication Engineering. The International Conference on Intelligent System and Data Processing (ICISD 2011) is organized to address various issues that will

# Access Free Gujarat Technological University

foster the creation of intelligent solutions in the future. The primary goal of the conference is to bring together worldwide leading researchers, developers, practitioners, and educators interested in advancing the state of the art in computational intelligence and data processing for exchanging knowledge that

# Access Free Gujarat Technological University

encompasses a broad range of disciplines among various distinct communities.

Another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working in India and abroad.

# Access Free Gujarat Technological University

This book proposes a proportional integral type sliding function, which does not facilitate the finite reaching and hence the responses of the load voltage results in an exponential steady state. To facilitate finite time reaching, it also presents the new Integral Sliding Mode Control with Finite Time Reaching (ISMCFTR). The book also

# Access Free Gujarat Technological University

extends the application of the proposed controller to another type of PEC, the DC-DC Boost converter, and also proposes the PI type sliding surface for the Zeta converter, which is non-inverting type Buck Boost converter. An important source of practical implementations, it presents practical implementations as simulation and

# Access Free Gujarat Technological University

experimental results to demonstrate the efficacy of the converter.
