Woosung Is Anything But 'Lazy'

Tenants at Regina Rose Apartments were displaced in late June. Differing views of progress on repairs depend on who you ask.

Internationally recognized expert on raising and educating boys, Dr. Tim Hawkes shows parents of tween and teen boys how to approach difficult but important conversations. Every parent of a teenage boy knows there are certain conversations they must have with their son but often they put them off--or worse, don't have them at all--because they simply don't know where to start. In *Ten Conversations You Must Have With Your Son*, Dr. Hawkes provides parents with the essential information you need to negotiate your way through what can often be very difficult territory about the why, what, and how of ten key topics: love, identity, values, leadership, achievement, sex, money, health, living together, and resilience. Each chapter offers suggestions for how you can connect with your sons on these issues while sharing your own experiences and knowledge with your boys. A headmaster of 25 years, Dr. Hawkes is in a unique position to know what goes on inside the minds of teenage boys. He understands what they need to know to best prepare them for the opportunities, responsibilities, challenges and demands that life will make on them. *Ten Conversations You Must Have With Your Son* is the one book anyone with a teenage son should read to help them prepare him for adulthood.

Sexting, cyberbullying, revenge porn, online predators... all of these potential threats can tempt parents to snatch the smartphone or tablet right out of their children ' s hands. While avoidance might eliminate the dangers, that approach also means your child misses out on technology ' s many benefits and opportunities. *Raising Humans in a Digital World* shows how digital kids must learn to navigate this environment, through developing social-emotional skills balancing virtual and real life building safe and healthy relationships avoiding cyberbullies and online predators protecting personal information identifying and avoiding fake news and questionable content becoming positive role models and leaders. This book is packed with at-home discussion topics and enjoyable activities that any busy family can slip into their daily routine. Full of practical tips grounded in academic research and hands-on experience, today ' s parents finally have what they ' ve been waiting for—a guide to raising digital kids who will become the positive and successful leaders our world desperately needs. Praise for *Raising Humans in a Digital World* " If you need practical, positive advice on how to handle your and your kids ' digital lives, look no further. This book tackles the risks and addresses the potential harms, while keeping our eyes on the prize of the remarkable rewards that the online world brings. " --Stephen Balkam, founder & CEO, Family Online Safety Institute " *Raising Humans in a Digital World* is not only a timely book, it ' s essential reading for every parent, grandparent, and teacher. Diana Graber empowers you through her educational (proven and practical) curriculum and engages you through anecdotal stories. " --Sue Scheff, founder of Parents ' Universal Resource Experts and author of *Shame Nation*, *Google Bomb*, and *Wit ' s End* " Brilliant, compelling, and essential are the first words that came to my mind when reading Diana Graber ' s *Raising Humans in a Digital World*. Diana not only taps her own exemplary expertise but also assembles a " who ' s who " of digital thought leaders to deliver a treasure trove of pragmatic advice via an engaging storytelling style. " --Alan Katzman, founder and CEO, Social Assurity LLC " Diana Graber not only shows parents how to create safe and responsible relationships in this ever-changing digital world, but she gives them the powerful tools to navigate through the many aspects of what is required to keep kids safe online. The misuse of technology and the cruel behaviors that take place daily by kids and teens can be changed, and Graber shows this in her informative and educational book *Raising Humans in a Digital World*. The book should be every parent ' s bible as a resource to ensure that their children are responsible and safe. " --Ross Ellis, founder and CEO, STOMP Out Bullying " This beautifully written book gives you the tools to raise healthy kids in a digital world. The anecdotes underscore the thoughtfulness of today ' s youth and their hunger for learning how to navigate their world well, instead of just being warned off by fearful adults. It is thoughtfully organized and theoretically sound, and will empower parents to have some of those much-needed conversations with their kids. " --Dr. Pamela Rutledge, director, Media Psychology Research Center and faculty member, Fielding Graduate University

An adaptation of the business classic *Getting Things Done* for teenage readers The most interconnected generation in history is navigating unimaginable amounts of social pressure, both in personal and online interactions. Very little time, focus, or education is being spent teaching and coaching this generation how to navigate this unprecedented amount of "stuff" entering their lives each day. How do we help the overloaded and distracted next generation deal with increasing complexity and help them not only survive, but thrive? How do we help them experience stress-free productivity and gain momentum and confidence? How do we help them achieve autonomy, so that they can confidently take on whatever comes their way? *Getting Things Done for Teens* will train the next generation to overcome these obstacles and flourish by coaching them to use the internationally renowned *Getting Things Done* methodology. In its two editions, David Allen's classic has been translated into dozens of languages and sold over a million copies, establishing itself as one of the most influential business books of its era, and the ultimate book on personal organization. *Getting Things Done for Teens* will adapt its lessons by offering a fresh take on the GTD methodology, framing life as a game to play and GTD as the game pieces and strategies to play your most effective game. It presents GTD in a highly visual way and frames the methodology as not only as a system for being productive in school, but as a set of tools for everyday life. *Getting Things Done for Teens* is the how-to manual for the next generation--a strategic guidebook for creating the conditions for a fruitful and effective future.
