Since I am a huge horse lover and have devoted my career to working with horses as an equine-assisted coach, I had to attend in 2015. My favorite parts were meeting the artists and authors at the Pop-Up Art and Literary Gallery hosted in the Ukrainian Village and listening to the enlightening panels. I also loved the emotion-evoking films Spirit Riders and Healing Horses.

A “superb” account of the enduring connection between humans and horses—“Full of the sort of details that get edited out of more traditional histories” (*The Economist*). Fifty-six million years ago, the earliest equid walked the earth—and beginning with the first-known horse-keepers of the Copper Age, the horse has played an integral part in human history. It has sustained us as a source of food, an industrial and agricultural machine, a comrade in arms, a symbol of wealth, power, and the wild.

Combining fascinating anthropological detail and incisive personal anecdote, equestrian expert Susanna Forrest draws from an immense range of archival documents as well as literature and art to illustrate how our evolution has coincided with that of horses. In paintings and poems (such as Byron's famous "Mazeppa"), in theater and classical music (including works by Liszt and Tchaikovsky), representations of the horse have changed over centuries, portraying the crucial impact that we've had on each other. Forrest combines this history with her own experience in the field, and travels the world to offer a comprehensive look at the horse in our lives today: from Mongolia where she observes the endangered takhi, to a show-horse performance at the Palace of Versailles; from a polo club in Beijing to Arlington, Virginia, where veterans with PTSD are rehabilitated through interaction with horses. "For the horse-addicted, a book can get no better than this . . . original, cerebral and from the heart." —The Times (London)

He already owned and managed two ranches and needed a third about as much as he needed a permanent migraine: that's what Alan Day said every time his friend pestered him about an old ranch in South Dakota. But in short order, he proudly owned 35,000 pristine grassy acres. The opportunity then dropped into his lap to establish a sanctuary for unadoptable wild horses previously warehoused by the Bureau of Land Management. After Day successfully lobbied Congress, those acres became Mustang Meadows Ranch, the first government-sponsored wild horse sanctuary established in the United States. The Horse Lover is Day's personal history of the sanctuary's vast enterprise, with its surprises and pleasures and its plentiful dangers, frustrations, and heartbreak. Day's deep connection with the animals in his care is clear from the outset, as is his maverick philosophy of horse-whispering, with which he trained fifteen hundred wild horses. The

Horse Lover weaves together Day's recollections of his cowboying adventures astride some of his best horses, all of which taught him indispensable lessons about loyalty, perseverance, and hope. This heartfelt memoir reveals the Herculean task of balancing the requirements of the government with the needs of wild horses.

When Elvis Presley decided he wanted to buy a horse in 1966, he didn't want just any horse. "He wanted a Golden Palomino," Priscilla Presley remembers. "He would get up at 3:00 in the morning, go to certain farms and ranches and say, 'Do you have a Golden Palomino for sale?' People would say, 'That was Elvis Presley!'" Elvis's legendary love of horses drove him to find the Golden Palomino who would become his beloved companion Rising Sun, and to fill Graceland's stables and Circle G Ranch with horses for family and friends to ride. In the first-ever book dedicated to Elvis's equestrian side, horse lovers Kimberly Gatto and Victoria Racimo share rare stories, interviews, and photographs that shed light on the beautiful, quiet life the King lived when he was with his horses.
