An idiot, in modern use, is a stupid or foolish person.. It was formerly a technical term in legal and psychiatric contexts for

some kinds of profound intellectual disability where the mental age is two years or less, and the person cannot guard themselves against common physical dangers. The term was gradually replaced by the term profound mental retardation (which has itself since been ...

Idiot - Wikipedia

In psychology, an idiot has the least intelligence on the IQ scale (this now is equivalent to someone who is mentally retarded or the more politically correct “mentally challenged”); an imbecile is not quite as dumb as an idiot and is now considered equivalent to moderate retardation; a moron is then the highest level of intelligence for someone who is mentally retarded, thus considered as being mildly mentally retarded.
