~~Imperial Grunts: On the Ground with the American Military~~

An ex-Marine captain shares his story of fighting in a Recon battalion in Afghanistan and Iraq, beginning with his training at Quantico and following his experiences in the deadliest conflicts since the Vietnam War.

~~Imperial Grunts: On the Ground with the American Military~~

A tight-knit group closely linked by intermarriage as well as class and old school ties, the "Arabists" were men and women who spent much of their lives living and working in the Arab world as diplomats, military attaches, intelligence agents, scholar-adventurers, and teachers. As such, the Arabists exerted considerable influence both as career diplomats and as bureaucrats within the State Department from the early nineteenth century to the present. But over time, as this work shows, the group increasingly lost touch with a rapidly changing American society, growing both more insular and headstrong and showing a marked tendency to assert the Arab point of view. Drawing on interviews, memoirs, and other official and private sources, Kaplan reconstructs the 100-year history of the Arabist elite, demonstrating their profound influence on American attitudes toward the Middle East, and tracing their decline as an influx of ethnic and regional specialists has transformed the State Department and challenged the power of the old elite.

~~Imperial Grunts: On the Ground with the American Military~~

The importance of honor is present in the earliest records of civilization. Today, while it may still be an essential concept in Islamic cultures, in the West, honor has been disparaged and dismissed as obsolete. In this lively and authoritative book, James Bowman traces the curious and fascinating history of this ideal, from the Middle Ages through the Enlightenment and to the killing fields of World War I and the despair of Vietnam. Bowman reminds us that the fate of honor and the fate of morality and even manners are deeply interrelated.

~~Imperial Grunts: On the Ground with the American Military~~

Judge Robert H. Bork will deliver the Barbara Frum Historical Lecture at the University of Toronto in March 2002. This annual lecture "on a subject of contemporary history in historical perspective" was established in memory of Barbara Frum and will be broadcast on the CBC Radio program Ideas. In Coercing Virtue, former US solicitor general Robert H. Bork examines judicial activism and the practice of many courts that are not committed to their authority. In his opinion, this practice infringes on the legitimate domains of the executive and legislative branches of government and constitutes a judicialization of politics and morals. Should courts be used as a vehicle of social change even if the majority view weighs against the court's ruling? And if we allow courts to make law, especially in a country like Canada where our Supreme Court judges aren't even elected, then what does this mean for democratic government? "The nations of the West have long been afraid of catching the "American disease" -- the seizure by judges of authority properly belonging to the people and their elected representatives. Those nations are learning, perhaps too late, that this imperialism is not an American disease; it is a judicial disease, one that knows no boundaries." -- Robert H. Bork, from Coercing Virtue

~~Imperial Grunts: On the Ground with the American Military~~

Throughout history, precious stones have inspired passions and poetry, quests and curses, sacred writings and unsacred actions. In this scintillating book, journalist Victoria Finlay embarks on her own globe-circling search for the real stories behind some of the gems we prize most. Blending adventure travel, geology, exciting new research, and her own irresistible charm, Finlay has fashioned a treasure hunt for some of the most valuable, glamorous, and mysterious substances on earth. With the same intense curiosity and narrative flair she displayed in her widely-praised book Color, Finlay journeys from the underground opal churches of outback Australia to the once-pearl-rich rivers of Scotland; from the peridot mines on an Apache reservation in Arizona to the remote ruby mines in the mountains of northern Burma. She risks confronting scorpions to crawl through Cleopatra's long-deserted emerald mines, tries her hand at gem cutting in the dusty Sri Lankan city where Marco Polo bartered for sapphires, and investigates a rumor that fifty years ago most of the world's amber was mined by prisoners in a Soviet gulag. Jewels is a unique and often exhilarating voyage through history, across cultures, deep into the earth's mantle, and up to the glittering heights of fame, power, and wealth. From the fabled curse of the Hope Diamond, to the disturbing truths about how pearls are cultured, to the peasants who were once executed for carrying amber to the centuries-old quest by magicians and scientists to make a perfect diamond, Jewels tells dazzling stories with a wonderment and brilliance truly worthy of its subjects.
