operating and maintaining the built environment. Technology plays a big role in this function, and often facility managers are asked to install, implement, and work with a variety of technologies without any prior experience in information technology. Technology for Facility Managers presents the cutting-edge technology that facility managers will come across in their careers. Each chapter covers a different technology and includes an overview and basic primer about the technology—the current use of the technology, how it's evolving, and how it

costs and improve service. In addition, leadership in facility management should occur in all directions: downward to staff, sideways to colleagues and upward to senior management. We have the responsibility to develop the facility management department into a professional operation, train and re-train staff, establish procedures and conduct quality assurance and performance management. The ideal facility manager must have Aristotle's logic and Solomon's wisdom, a priest's discretion, and a gambler's poker face, a lawyer's shrewdness and a marketing director's charm,
