Introduction Crystallography Sands Donald E

Crystallography is concerned with the structure and properties of the crystalline state. Crystals have been the subject of study and speculation for hundreds of years, and everyone has some familiarity with their properties. We will concentrate on those aspects of the science of crystallography that are of interest to chemists.

Donald Sands was born in Leominster, MA and did his undergraduate work at nearby Worcester Polytechnic Institute. He then went on to Cornell University where he completed a Ph.D. in 1955 after having worked in chemical crystallography under the direction of J. Lynn Hoard.. One of Don's papers with Hoard, "The Structure of Tetragonal Boron", became a classic; a few months later Linus Pauling wrote to Hoard saying:
