Please make plans to join us as the 31 st Purdue Jazz Festival goes “ Virtual ” this January! Because of your loyalty and commitment to our past festivals, on Saturday, January 23, Purdue Jazz Bands ...

By Jamey Aebersold, adapted by Luke Gillespie. Why should horn players have all of the fun? Now, the number one selling Jazz Improvisation book in the world has a whole new look! Introducing a new version of Jamey's world famous Volume 1: How to Play Jazz and Improvise, completely revised and specifically tailored for you by jazz pianist Luke Gillespie of the prestigious IU school of music. This edition is perfectly aligned with the original classic Sixth Edition that introduced tens of thousands of musicians to essential jazz fundamentals such as scale/chord relationships, note choices, etc. In this special edition, however, the text has been carefully edited and rewritten to speak specifically to pianists. The musical examples have been rewritten, as well, in grand staff format and include suggested left-hand and two had voicing examples to be played with the CD tracks. The first play-a-long/demonstration CD includes special stereo separations, allowing the piano to be eliminated so that the student can play along with bassist Rufus Reid and drummer Jonathan Higgins. The second CD includes the same play-a-long tracks as the first CD, but at slower practice tempos. A complete package for the beginning jazz pianist! 106 pages, spiral bound for easy opening.

The goal of this play-along series is to provide the jazz drummer with material that will be challenging, informative, and musical. It features jazz tunes based on standard jazz repertoire. While there is no written melody, there are a number of melodies that one can sing over the existing chord changes. These tunes give the player a chance to practice comping, soloing, trading fours and eights, working on ride cymbal sound, etc. Contents: Introduction * How to Improve Your Time * Bebop Drum Patterns * Slow-Medium Tunes * Fast Tunes * Drum Tracks * Essential Recording List * Tunes Every Musician Should Know * CD Index.

Designed for all rhythm section players and teachers. Listen to the CD as you would any jazz recording, as the melody is played in and out and the musicians solo, comp., and trade fours. Then, using your stereo balance control, eliminate your part and sit in! This is a tremendous tool for teachers; allowing isolation and careful study of each instrument's role with definitive chapters in the booklet that are written by the artists. Includes piano & guitar voicings, transcribed bass lines, outstanding drum information, and transcribed solos by Haerle, Petersen, and Coolman. Our first play-along where the drummer can be turned off and students can trade fours and eights with the pros (Volume 30B only). Rhythm Section: Dan Haerle (p); Todd Coolman (b); Jack Petersen (g); Ed Soph (d).

A new version of How to play jazz and improvise ([A new approach to jazz improvisation], volume 1), completely revised and specifically tailored for guitarists by Corey Christiansen. This edition is perfectly aligned with the original sixth edition that introduced essential jazz fundamentals such as scale/chord relationships, articulation, note choices, etc. The text has been edited and rewritten to speak specifically to guitarists.--from publisher's web site.

From the source! Paquito produced and oversaw the recording himself using his own world renowned band! The diverse music presented here is a welcome addition to every musician's play-along library. This set contrasts the thrill of hot, exciting Latin classics with the meditative, laid-back feel of Brazilian favorites. A refreshing change of pace. Rhythm Section: Daniel Freiberg (p); Oscar Stagnaro (b); Mark Walker (d); Parnell Saturnino (Percussion). Titles: A Night in Englewood * Guataca City * La Dama y el Vagabundo * Christmas Without You * Lorenzo's Wings * Memories * Chucho * Bluellespie * El Cura * Gdansk * South of the Waltz * Chick * Wapanga.

Jamey's guitar adaptation of his famous Volume 1: How to Play Jazz and Improvisation is so revered by guitarists, jazz great Corey Christiansen has now adapted Jamey's Volume 2: Nothin' But Blues for Guitar, as well. Formatted exactly like the Volume 1: Jazz Guitar book, Volume 2 includes all of the scales and basic info you need to get started in jazz blues with TAB and frames for the non-reading guitarist, plus brand new bonus tracks not found in the original Volume 2. Tracks include many different blues grooves, including slow, fast, swing, bossa, jazz-rock, funk, shuffle, and more. This guitar edition is aligned exactly with the original Volume 2: Nothin' But Blues so educators can use it in a classroom situation.
