Chaz Salvatore Bono (born Chastity Sun Bono; March 4, 1969) is an American writer, musician and actor. His parents are entertainers Sonny Bono and Cher, and he became widely known in appearances as a child on their television show, The Sonny & Cher Comedy Hour.. Bono is a trans man. Longtime friend and reporter, Neil McCormick, reveals childhood and present day stories about Bono and his band, U2. Some are born great. Some achieve greatness. Some have greatness thrust upon them. And some have the misfortune to go to school with Bono. Everyone wants to be famous. But as a young punk in Dublin in the 1970s, Neil McCormick's ambitions went way beyond mere pop stardom. It was his destiny to be a veritable Rock God. He had it all worked out: the albums, the concerts, the quest for world peace. There was only one thing he hadn't counted on. The boy sitting on the other side of the classroom had plans of his own. Killing Bono is a story of divergent lives. As Bono and his band U2 ascended to global superstardom, his school friend Neil scorched a burning path in quite the opposite direction. Bad drugs, weird sex, bizarre haircuts: Neil experienced it all in his elusive quest for fame. But sometimes it is life's losers who have the most interesting tales to tell. Featuring guest appearances by the Pope, Bob Dylan, and a galaxy of stars, Killing Bono offers an extremely funny, startlingly candid, and strangely moving account of a life lived in the shadows of superstardom. " The problem with knowing you is that you've done everything I ever wanted to, " Neil once complained to his famous friend. " I'm your doppelganger, " Bono replied. " If you

want your life back, you'll have to kill me. ” Now there was a thought...

The phone rings: 'Neil, it's Bono, I've just recorded a duet with Frank Sinatra!' 'Aaarrggghh! Leave me alone. You're living the life I wanted' It's every boy's dream: to be a Rock God. Most of us leave the dream behind when reality bites, but that's not so easy when your mate's the lead singer in the biggest band in the world. Neil McCormick and Bono first met at school. Their continued friendship only highlights Neil's failure to live the dream. Self-deprecating, charming and very, very funny, this is a memoir for anyone who's ever gurned in front of the mirror as they hit the high notes on their air guitar . . .

Zero is the latest craze. Young, sexy and brilliant, he is a multi-hyphenated (singer-songwriter-rapper-producer) superstar for the digital generation. According to his publicist at least. He 's also a narcissistic, insecure, hyperactive, coke-snorting, pill-popping, loud-mouthed maelstrom of contradictions skating over the thin ice of terminal self-loathing. He has touched down in New York with his sycophantic entourage for the launch of a new single/album/movie/tour. It is countdown to Year Zero. But the boy at the centre of the media feeding frenzy is cracking up. Inside the echo chamber of his own skull, he isn't sure he deserves all the attention, doesn ' t even know if he wants it anymore and is being driven half-mad by the mysterious absence of the love of his life. As the crucial hour approaches the young star cuts and runs, setting off on a wild trip across America pursued by paparazzi, fans, fortune hunters and his Mephistophelian manager, Beasley. He 's about to find out that when you have the most famous face in the world, you can run... but you can't hide.

the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.

U2 and the Religious Impulse examines indications in U2's music and performances that the band work at conscious and subconscious levels as artists who focus on matters of the spirit, religious traditions, and a life guided by both belief and doubt. U2 is known for a career of stirring songs, landmark performances and for its interest in connecting with fans to reach a higher power to

accomplish greater purposes. Its success as a rock band is unparalleled in the history of rock 'n' roll's greatest acts. In addition to all the thrills one would expect from entertainers at this level, U2 surprises many listeners who examine its lyrics and concert themes by having a depth of interest in matters of human existence more typically found in literature, philosophy and theology. The multi-disciplinary perspectives presented here account for the durability of U2's art and offer informed explanations as to why many fans of popular music who seek a connection with a higher power find U2 to be a kindred spirit. This study will be of interest to scholars and students of religious studies and musicology, interested in religion and popular music, as well as religion and popular culture more broadly.

In *Dining with Madmen: Fat, Food, and the Environment in 1980s Horror*, author Thomas Fahy explores America's preoccupation with body weight, processed foods, and pollution through the lens of horror. Conspicuous consumption may have communicated success in the eighties, but only if it did not become visible on the body. American society had come to view fatness as a horrifying transformation—it exposed the potential harm of junk food, gave life to the promises of workout and diet culture, and represented the country's worst consumer impulses, inviting questions about the personal and environmental consequences of excess. While changing into a vampire or a zombie often represented widespread fears about addiction and overeating, it also played into concerns about pollution. Ozone depletion, acid rain, and toxic waste already demonstrated the irrevocable harm being done to the planet. The horror genre—from *A Nightmare on Elm Street* to *American Psycho*—responded by presenting this damage as an urgent problem, and, through the sudden violence of killers, vampires, and zombies, it depicted the consequences of inaction as terrifying. Whether through Hannibal Lecter's cannibalism, a vampire's thirst for blood in *The Queen of the Damned* and *The Lost Boys*,

or an overwhelming number of zombies in George Romero ' s Day of the Dead, 1980s horror uses out-of-control hunger to capture deep-seated concerns about the physical and material consequences of unchecked consumption. Its presentation of American appetites resonated powerfully for audiences preoccupied with body size, food choices, and pollution. And its use of bodily change, alongside the bloodlust of killers and the desolate landscapes of apocalyptic fiction, demanded a recognition of the potentially horrifying impact of consumerism on nature, society, and the self.
