Over the course of a career spanning more than 50 years, Magnum photographer Hiroji Kubota has spent his life traveling extensively and documenting the world around him. From his coverage of the Black Panther Party in the mid-1960s to his incomparable access to North Korea, Kubota has prolifically captured the histories of diverse cultures throughout the world. This sumptuous visual biography encompasses the best images of his life's work, broken down into chapters, with illuminating narrative texts throughout. Rooted in his experience of a Japan ravaged by destruction and famine at the end of World War II, Kubota's work is characterized by a desire to find beauty and honor in human experience. Hiroji Kubota Photographer includes all of Kubota's key bodies of work, including his many extended trips to China, Burma, the United States, and North and South Korea, as well as his home country, Japan.

One favorite story in the Bible is Jesus calling his first disciples along the Sea of Galilee. Unfortunately, when Jesus called James, John, Peter, and Andrew to a life of ministry, he called them away from their business partner Zebedee. Zebedee, a first-century fisherman, devoted Jew and entrepreneur, watched his partners choose to walk away from their business obligations and follow Jesus to become fishers of men. As Christians, we are taught to turn to the Bible when we are in need of guidance. When we are lost, confused, seeking growth or opportunity, God's Word is our source of strength and understanding. And even though we may believe and practice Jesus's teachings we have unfortunately learned to separate our Christian values from our workplace. We turn to self-help books on management, workshops about accountability, or seminars on increasing our business traffic. We seek guidance from those successful in our industry or other experts in the secular world.As company leaders, we all too often forget that the most valuable source of information we have is from the Creator himself, and is found in His Word which is designed to guide us through all of lifes' journeys. This includes even our businesses. This book is looking at our 21st-century business world through Zebedees' eyes. It demonstrates that the biblical knowledge from the first-century is applicable to our business world today. Zebedee will show us how we can better understand how God wants us to run our businesses, even in the face of struggles, despair and confusion. He shows us how to establish sound business practices based on His Word, and how to lead our businesses in the way God has called us. The Bible is really the only book we need.

Service procedures for lawn and garden tractors manufactured through 1990.

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack-but far more fun to discover, as all of these delightful stories make abundantly clear.

Growing up near the Sabine, journalist Wes Ferguson, like most East Texans, steered clear of its murky, debris-filled waters, where alligators lived in the backwater sloughs and an occasional body was pulled from some out-of-the-way crossing. The Sabine held a reputation as a haunt for a handful of hunters and loggers, more than a few water moccasins, swarms of mosquitoes, and the occasional black bear lumbering through swamp oak and cypress knees. But when Ferguson set out to do a series of newspaper stories on the upper portion of the river, he and photographer Jacob Croft Botter were entranced by the river's subtle beauty and the solitude they found there. They came to admire the self-described "river rats" who hunted, fished, and swapped stories along the muddy water-plain folk who love the Sabine as much as Hill Country vacationers love the clear waters of the Guadalupe. Determined to travel the rest of the river, Ferguson and Botter loaded their gear and launched into the stretch of river that charts the line between the states and ends at the Gulf of Mexico.
