Data Science is booming thanks to R and Python, but Java brings the robustness, convenience, and ability to scale critical to today's data science applications. With this practical book, Java software engineers looking to add data science skills will take a logical journey through the data science pipeline. Author Michael Brzustowicz explains the basic math theory behind each step of the data science process, as well as how to apply these concepts with Java. You'll learn the critical roles that data IO, linear algebra, statistics, data operations, learning and prediction, and Hadoop MapReduce play in the process. Throughout this book, you'll find code examples you can use in your applications. Examine methods for obtaining, cleaning, and arranging data into its purest form Understand the matrix structure that your data should take Learn basic concepts for testing the origin and validity of data Transform your data into stable and usable numerical values Understand supervised and unsupervised learning algorithms, and methods for evaluating their success Get up and running with MapReduce, using customized components suitable for data science algorithms

Technical Report from the year 2014 in the subject Engineering - Automotive Engineering, , language: English, abstract: The new direction of development of the automotive vehicle ride comfort and driving smoothness is associated with the advancement of the machine parts design, e.g., torsional dampers on friction clutch are considered as essential parts to maintain engine torque peaks as well as operational irregularities and reduce them in a way that is consistent with the comfort and robustness purposes. In this research, a numerical technique is used to simulate new models for rigid disc drive of friction clutch. Shape optimizations of the proposed models are performed to improve the dynamic characteristics of the system and hence the absorption of shocks that occur during clutch engagement. The finite element method has been used to compute the stresses and deformations during the steady-state period, and the vibration characteristics of the rigid disc drives of clutch.

A New York Times bestseller: "Udall masterfully portrays the hapless foibles and tragic yearnings of our fellow humans." —San Francisco Chronicle Golden Richards, husband to four wives, father to twenty-eight children, is having the mother of all midlife crises. His construction business is failing, his family has grown into an overpopulated mini-dukedom beset with insurrection and rivalry, and he is done in with grief: due to the accidental death of a daughter and the stillbirth of a son, he has come to doubt the capacity of his own heart. Brady Udall, one of our finest American fiction writers, tells a tragicomic story of a deeply faithful man who, crippled by grief and the demands of work and family, becomes entangled in an affair that threatens to destroy his family's future. Like John Irving and Richard Yates, Udall creates characters that engage us to the fullest as they grapple with the nature of need, love, and belonging. Beautifully written, keenly observed, and ultimately redemptive, *The Lonely Polygamist* is an unforgettable story of an American family—with its inevitable dysfunctionality, heartbreak, and comedy—pushed to its outer limits.

The Hood Health Handbook is a comprehensive source of information and insight on nearly every health issue faced by the urban community. In plain language, the authors draw on well-known examples from urban culture to illustrate what works...and what doesn't. Focusing on natural and affordable approaches, the authors provide recommendations that anyone can put to practice. Volume One focuses on the status of health in the urban community, the "wrong foods" that make us unhealthy, the history of diet and healthcare among Black and brown people (focusing on how things changed for the worst), the diseases and illnesses that plague our communities, and holistic (natural) methods to heal and treat ourselves into wellness.

Washed-up movie star Jack Palms is knee-deep in a Bay Area drug war and it'll take the performance of a lifetime to get him through it alive. In the three years since Jack Palms left Hollywood and kicked his drug habit, he's added fourteen pounds of muscle, read eighty-three books, and played it as straight as anyone could reasonably ask. But the residual checks are drying up, and the ascetic lifestyle's starting to wear thin, so Jack's happy to cash in on his former celebrity by showing some out-of-town high rollers around San Francisco's club scene. Then people start turning up dead, and Jack realizes he's been playing tour guide to a pack of former KGB agents turned coke dealers. Soon he's got too many gunmen after him to count—including a South American drug cartel, a mountain-sized Samoan enforcer, and a mobbed-up strip-club owner with an army of thugs. That's not to mention the gorgeous bartender who may be planning on shooting him in the back and the homicide cop who's just given Jack twenty-four hours to bring down the Bay Area's biggest drug dealer. But the thing that scares Jack the most? He's starting to enjoy himself. From the Trade Paperback edition.

How do we find balance between our sense of calling and the call to rest? Spiritual director and "recovering speed addict" Alan Fadling leads readers in a meditation on the unhurried life. Following Jesus' earthly life, this revised edition from Fadling shows how the work of "unhurrying" ourselves is central to our spiritual development.

Nathaniel Pike, a headstrong billionaire, is purchasing a piece of federal land in New Hampshire's White Mountains and turning it into a huge, inaccessible parking lot. Orbiting Pike and his aspirations is a cast of perfectly flawed eccentrics: Marlene, who is shy and vulnerable but also a budding exhibitionist; Stuart, Pike's assistant, who is Marlene's husband and a failed writer; and Heath, who films Marlene's public nudity and turns her into an Internet star. In this grand tale of the folly of the modern world, Mike Heppner skewers the extravagance of wealth, and the class that grows up around that wealth, even as he casts a humane look at the people involved.

Author Kylie Chan has a boldly, brazenly unique take on urban fantasy—she combines it with Kung Fu. In *Earth to Hell*, Chan launches the characters from her *Dark Heavens* trilogy (*White Tiger*, *Red Phoenix*, *Blue Dragon*) on a new adventure that will take them from the teeming streets of Hong Kong through the portals of Hell to set free a friend—as demons and devils rise up to challenge them in life-or-death battle, forcing Emma Donahoe Chen, wife of God of the Northern Heavens, to seek the help of a sworn foe, the fearsome Demon King. An irresistible blend of Chinese mythology, martial arts action, and ingenious invention, *Earth to Hell* is a treat for Kung Fu movie fans; for readers of *Lilith Saintcrow*, *Liz Williams*, *Karen Chance*, *Devon Monk*, and *Ilona Andrews*; and for anyone who desires a different kind of fantasy.

The second book in Australian author Kylie Chan's ingenious urban fantasy saga—a tale of ancient gods and foul demons doing battle in the modern world—*Red Phoenix* combines Chinese mythology with martial arts, paranormal romance, and magic in a story that takes off like a rocket and never slows down. The action moves from Hong Kong to Europe as heroine Emma Donahoe finds a demonic circle of death closing around her and the people she loves: the breathtaking and powerful god she is bound to and his innocent young daughter whom Emma has sworn to protect. *Red Phoenix* is gripping globe-trotting adventure, urban fantasy, and Kung Fu all rolled into one spectacular package that fans of *Lilith Saintcrow*, *Liz Williams*, *Karen Chance*, *Devon Monk*, and *Ilona Andrews* are going to flip over.
