The boy, Theo, is unusually reticent. He walks in his sleep and rarely speaks during the day. By night many characters and past voices emerge in his story telling and we know his trauma must be hidden somewhere in these ¶night calypsos¶ and maybe his delivery of the recitations led the priests to believe he was possessed.

I originally read Night Calypso in 2007 because I enjoy tales from the Caribbean peppered with local color and dialect. Here, many Trinidadian colloquialisms are employed and the author uses nature to flesh out his tale. He utilizes native birds, beasts and plant life and references carnivals past and calypsonians of the time.

LONGLISTED FOR THE INTERNATIONAL IMPAC DUBLIN LITERARY AWARD 1938 is a tumultuous year on the small Trinidadian island of El Caracol, which houses a leper colony and a convent. In the sultry heat of the dry season a young orphan, Theo, is sent to live with the island's doctor, Vincent Metivier. The doctor knows little of Theo's past, only that it has been troubled and that he now needs love and attention. As Theo settles into the rhythm of life in El Caracol, he begins to unburden himself of his demons. Every night, he sleepwalks his own strange, disturbing calypso about his

childhood. Vincent listens and, gradually, learns what demons still haunt the boy's mind. And as his friendship with the passionate, unpredictable nurse Sister Weil intensifies, Vincent finds his settled life spirally dangerously out of control, as war in Europe looms on the horizon. A richly sensual, heartfelt novel, *Night Calypso* is the work of one of the world's most imaginative writers.

In this far-reaching literary history, John Wharton Lowe remakes the map of American culture by revealing the deep, persistent connections between the ideas and works produced by writers of the American South and the Caribbean. Lowe demonstrates that a tendency to separate literary canons by national and regional boundaries has led critics to ignore deep ties across highly permeable borders. Focusing on writers and literatures from the Deep South and Gulf states in relation to places including Mexico, Haiti, and Cuba, Lowe reconfigures the geography of southern literature as encompassing the "circumCaribbean," a dynamic framework within which to reconsider literary history, genre, and aesthetics. Considering thematic concerns such as race, migration, forced exile, and colonial and postcolonial identity, Lowe contends that southern literature and culture have always transcended the physical and political boundaries of the American South. Lowe uses cross-cultural readings of nineteenth- and twentieth-century writers, including William Faulkner, Martin Delany, Zora Neale Hurston, George Lamming, Cristina Garcia, Edouard Glissant, and Madison Smartt Bell, among many others, to make his argument. These literary figures, Lowe argues, help us uncover new ways of thinking about the shared culture of the South and Caribbean while demonstrating that southern literature has roots even farther south than we realize.

While visiting London, a beautiful young woman becomes homesick for the West Indies. Unfortunately, her only available chaperone for the perilous journey is her rakish hot-tempered cousin...

Calypso, the ethereal energy of love, comes to the aid of the hearts that call out to her. She comes from a fantasy realm, and brings hope and love to those who look for it. In *Blue Night*, Calypso has come to help Ella find her true love—and herself. A lonely and angry photographer, Ella struggles to find the woman she once was, buried under the pain of losing her parents. Realizing she has been full of anger in all her relationships, she leaves her boyfriend and moves back home, determined to find the woman she used to be. Instead she finds Vaughn, a handsome neighbour, and Beau, an old flame from her childhood. Both men stir her passion: one a kind and thoughtful friend, the other a burning and passionate lover. Mistakes and misunderstandings cause challenges as Ella navigates her desires, pain, and the belief that her true love is waiting for her. But she won't be ready for love until she can heal the pain in her heart, and find her way back to the kind person she used to be.

Two worlds: HERS the species of origin, and HIS from her darkest nightmares. Will she be the one to save his entire warrior race, or will their love tear the entire world apart? Calypso: "You destroyed our world... We are nothing now! Nothing but the old leather-bound classics that tell us who we WERE. So dominant, so advanced... You think you know love: Chemicals that explain your PERFECT science. Endorphins... none of it real: Animalistic. Well I am HUMAN. And we are not just science. Just because you have broken down these precious elements, the ingredients of the potion... It doesn't make the spell any less potent."

If you've ever laughed your way through David Sedaris's cheerfully misanthropic stories, you might think you know what you're getting with Calypso. You'd be wrong. When he buys a beach house on the Carolina coast, Sedaris envisions long, relaxing vacations spent playing board games and lounging in

the sun with those he loves most. And life at the Sea Section, as he names the vacation home, is exactly as idyllic as he imagined, except for one tiny, vexing realization: it's impossible to take a vacation from yourself. With Calypso, Sedaris sets his formidable powers of observation toward middle age and mortality. Make no mistake: these stories are very, very funny - it's a book that can make you laugh 'til you snort, the way only family can. Sedaris's writing has never been sharper, and his ability to shock readers into laughter unparalleled. But much of the comedy here is born out of that vertiginous moment when your own body betrays you and you realize that the story of your life is made up of more past than future. This is beach reading for people who detest beaches, required reading for those who loathe small talk and love a good tumour joke. Calypso is simultaneously Sedaris's darkest and warmest book yet - and it just might be his very best.

In a distant future, humans are on the run from the Warrior Alphas, who have taken over the planet. Only old, leather-bound books pulled from the rubble tell the story of who once inhabited Earth. Calypso is one of the last survivors. She's different than the rest of her kind, her hair a silvery blue and her eyes like ice due to a gene mutation from a past nuclear fallout. She has always been warned about the large, merciless enemy, and that if they found them, they would be killed or enslaved. One night, Calypso is attacked by one of their own. To her surprise, one of the alien males - Kassien - saves her and sets forth a chain of events that changes their lives, and the future of their races.
