Practical dimension provides you with support structures through which you can begin to develop your own philosophy of teaching, and debate key questions about the nature and purpose of the subject in school. Fully revised and updated in light of extensive changes to the curriculum, as well as to initial teacher education, the new edition considers the current debates around what we mean by geographical knowledge, and what's involved in studying at Masters level. Key chapters explore the fundamentals of teaching and learning geography: Why we teach and what to teach Understanding
