Manual

Almost like a book  
itself that teaches  
you specifically  
how to approach  
Organic Chemistry  
problems. In fact,  
manual is bigger  
than the book. Must  
buy if you are using  
Jones's book.

Although Jones's  
textbook may seem

a little bit  
convoluted and  
difficult, this book  
makes it all clear.
