Drawing on her experiences as a professor of English and the author of sixteen highly acclaimed books, critic bell hooks presents an insightful collection of essays on the process and politics of writing. Centrally, many of the essays raise provocative questions about the feminist movement and women's writing--the kinds of voices women have established in the wake of the demand for more writing by women, the politics of confession and the type of standards being set for women writers by critics. Several essays explore hooks's personal relationship to publishing, explaining the impact success has had on her work as she highlights her movement from writing in relative isolation to writing in New York City amidst the publishing industry, in a world full of writers. Other essays focus on the dearth of nonfiction writing by Black women, contrasting that with the rise in their published fiction. More general essays focus on writing as healing, raising issues about the function of writing; the extent to which readers inspire writers; and how race, ger, and class can determine one's relationship to words. Remembered Rapture offers a fresh and lively discussion of living with words.

First published in 1994. Routledge is an imprint of Taylor & Francis, an informa company.

What are the conditions needed for our nation to bridge cultural and racial divides? By "writing beyond race," noted cultural critic bell hooks models the constructive ways scholars, activists, and readers can challenge and change systems of domination. In the spirit of previous classics like Outlaw Culture and Reel to Real, this new collection of compelling essays interrogates contemporary cultural notions of race, gender, and class. From the films Precious and Crash to recent biographies of Malcolm X and Henrietta Lacks, hooks offers provocative insights into the way race is being talked about in this "post-racial" era.

In the critical essays collected in Black Looks, bell hooks interrogates old narratives and argues for alternative ways to look at blackness, black subjectivity, and whiteness. Her focus is on spectatorship—in particular, the way blackness and black people are experienced in literature, music, television, and especially film—and her aim is to create a radical intervention into the way we talk about race and representation. As she describes: "the essays in Black Looks are meant to challenge and unsettle, to disrupt and subvert." As students, scholars, activists, intellectuals, and any other readers who have engaged with the book since its original release in 1992 can attest, that's exactly what these pieces do.

Ten years ago, bell hooks astonished readers with Teaching to Transgress: Education as the Practice of Freedom. Now comes Teaching Community: A Pedagogy of Hope - a powerful, visionary work that will enrich our teaching and our lives. Combining critical thinking about education with autobiographical narratives, hooks invites readers to extend the discourse of race, gender, class and nationality beyond the classroom into everyday situations of learning. bell hooks writes candidly about her own experiences. Teaching, she explains, can happen anywhere, any time - not just in college classrooms but in churches, in bookstores, in homes where people get together to share ideas that affect their daily lives. In Teaching Community bell hooks seeks to theorize from the place of the positive, looking at what works. Writing about struggles to end racism and white supremacy, she makes the useful point that "No one is born a racist. Everyone makes a choice." Teaching Community tells us how we can choose to end racism and create a beloved community. hooks looks at many issues-among them, spirituality in the classroom, white people looking to end racism, and erotic relationships between professors and students. Spirit, struggle, service, love, the ideals of shared knowledge and shared learning - these values motivate progressive social change. Teachers of vision know that democratic education can never be confined to a classroom. Teaching - so often undervalued in our society -- can be a joyous and inclusive activity. bell hooks shows the way. "When teachers teach with love, combining care, commitment, knowledge, responsibility, respect, and trust, we are often able to enter the classroom and go straight to the heart of the matter, which is knowing what to do on any given day to create the best climate for learning."

In this brief and powerful book, Diana Fuss takes on the debate of pure essence versus social construct, engaging with the work of Luce Irigaray and Monique Wittig, Henry Louis Gates, Jr. and Houston Baker, and with the politics of gay identity.

What does it mean to call a place home? Who is allowed to become a member of a community? When can we say that we truly belong? These are some of the questions of place and belonging that renowned cultural critic bell hooks examines in her new book, Belonging: A Culture of Place. Traversing past and present, Belonging charts a cyclical journey in which hooks moves from place to place, from country to city and back again, only to end where she began--her old Kentucky home. hooks has written provocatively about race, gender, and class; and in this book she turns her attention to focus on issues of land and land ownership. Reflecting on the fact that 90% of all black people lived in the agrarian South before mass migration to northern cities in the early 1900s, she writes about black farmers, about black folks who have been committed both in the past and in the present to local food production, to being organic, and to finding solace in nature. Naturally, it would be impossible to contemplate these issues without thinking about the politics of race and class. Reflecting on the racism that continues to find expression in the world of real estate, she writes about segregation in housing and economic racialized zoning. In these critical essays, hooks finds surprising connections that link of the environment and sustainability to the politics of race and class that reach far beyond Kentucky. With characteristic insight and honesty, Belonging offers a remarkable vision of a world where all people--wherever they may call home--can live fully and well, where everyone can belong.

In this provocative and captivating dialogue, bell hooks and Cornel West come together to discuss the dilemmas, contradictions, and joys of Black intellectual life. The two friends and comrades in struggle talk, argue, and disagree about everything from community to capitalism in a series of intimate conversations that range from playful to probing to revelatory. In evoking the act of breaking bread, the book calls upon the various traditions of sharing that take place in domestic, secular, and sacred life where people come together to give themselves, to nurture life, to renew their spirits, sustain their hopes, and to make a lived politics of revolutionary struggle an ongoing practice. This 25th anniversary edition continues the dialogue with "In Solidarity," their 2016 conversation at the bell hooks Institute on racism, politics, popular culture and the contemporary Black experience.
