Children will experience natural growth and change throughout their lives. Play, by its very nature, always results in things falling apart, often literally, and children generally find satisfaction in this process of collapse and renewal. This book harnesses the power of the reorganizing process to elicit positive and profound change in children dealing with social, neurological, developmental, health and family issues. The author clarifies the theory behind this innovative play therapy approach, and explains its practical application to a full spectrum of client needs, using inspirational, real-life anecdotes as examples. He also describes the importance of using symbols in play therapy and focuses on ways to enable children to act out their internal aggression in a safe and healthy manner. This will be essential reading for play therapists and other professionals working therapeutically with children and their families.

Welcome to a top-level clearance world that doesn't exist...Now with updated material for the paperback edition. This is the adventurous, insightful, and often chilling story of a road trip through a shadow nation of state secrets, clandestine military bases, black sites, hidden laboratories, and top-secret agencies that make up what insiders call the "black world." Here, geographer and provocateur Trevor Paglen knocks on the doors of CIA prisons, stakes out a covert air base in Nevada from a mountaintop 30 miles away, dissects the Defense Department's multibillion dollar "black" budget, and interviews those who live on the edges of these blank spots. Whether Paglen reports from a hotel room in Vegas, a secret prison in Kabul, or a trailer in Shoshone Indian territory, he is impassioned, rigorous, relentless-and delivers eye-opening details.
