Get Free Parking Structures

There are an
estimated
600,000,000
passenger cars in the

Get Free Parking

world, and that number is increasing every day. So too is Earth's supply of parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint. It's official: we have paved paradise and put up a parking lot. In *ReThinking a Lot,*

Get Free Parking

Eran Ben-Joseph shares a different vision for parking's future. Parking lots, he writes, are ripe for transformation. After all, their design and function has not been rethought since the 1950s. With this book, Ben-Joseph pushes the parking lot into the twenty-first century. Ben-

Get Free Parking

Joseph shows that parking lots can be aesthetically pleasing, environmentally and architecturally responsible, and used for something other than car storage. He introduces us to some of the many alternative and nonparking purposes that parking lots have served -- from RV

"Shakespeare in the
Parking Lot." He

shows us parking lots
that are lushly

planted with trees
and flowers and

beautifully integrated
with the rest of the
built environment.

With purposeful
design, Ben-Joseph
argues, parking lots

Get Free Parking

could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas. For all the acreage they cover, parking lots have received scant attention. It's time to change that; it's time to rethink the lot.
