Cataloging everything from historic photographic processes to the latest advances in digital technology, this reference contains nearly 5,000 entries explaining the terms and techniques of photography. An ideal sourcebook for anyone with an interest in photography, entries include words associated with shooting techniques, digital imaging terms, specialized photographic subgenres, the science of photography, and notable photographers. Each entry blends ample cross-references with detailed explanations to provide both professional photographers and amateur photo enthusiasts with an essential resource.

The Gregg Reference Manual 9e by William Sabin is intended for anyone who writes, edits, or prepares material for distribution or publication. For nearly fifty years, this manual has been recognized as the best style manual for business professionals and for students who want to master the on-the-job standards of business professionals. The tenth edition of The Manual of Photography is an indispensable textbook for anyone who is serious about photography. It is ideal if you want to gain insight into the underlying scientific principles of photography and digital imaging, whether you are a professional photographer, lab technician, researcher or student in the field, or simply an enthusiastic amateur. This comprehensive guide takes you from capture to output in both digital and film media, with sections on lens use, darkroom techniques, digital cameras and scanners, image editing techniques and processes, workflow, digital file formats and image archiving. This iconic text was first published in 1890 and has aided many thousands of photographers in developing their own techniques and understanding of the medium. Now in full colour, The Manual of Photography still retains its clear, reader-friendly style and is filled with images and illustrations demonstrating the key principles. Not only giving you the skills and know-how to take stunning photographs, but will also allowing you to fully understand the science behind the creation of great images.
