inference is the
process of using
data analysis to
deduce properties
of an underlying
distribution of
probability.

Inferential
statistical analysis
infers properties of
a population, for
example by testing
hypotheses and
deriving estimates.

Where To Download

It is assumed that the observed data set is sampled from a larger population. Inferential statistics can be contrasted with descriptive statistics.

Descriptive statistics is solely concerned with properties of the observed data, and it does not re
