Writing is all about making meaning. The prospect of teaching writing to a classroom full of students—some who speak English and some who don't, can be overwhelming. When students learning English are at different levels, the task is even more challenging. Juli Kendall and Outey Khuon experimented with Ellin Keene's "Thinking Strategies Used by Proficient Learners" and found that by integrating writing and reading instruction their English language learners become stronger writers. Writing Sense outlines the classroom conditions necessary for successful writing instruction with English language learners, whether in writing workshop and/or small-group instruction. It includes 68 classroom-tested lessons for grades K–8 that show kids at all levels of language acquisition how to make connections, ask questions, visualize (make mental images), infer, determine importance, synthesize, monitor meaning and comprehension, and use fix-up strategies. Like the authors' earlier book, Making Sense, the five main sections are geared to the stages of language proficiency, and lessons are divided into "younger" and "older" students, spanning kindergarten through to grade eight. There are extensive lists of suggested books for mentor texts as well as lists of mentor authors to facilitate teachers' planning and instruction.

We know that literacy is the key to learning in school, yet millions of middle and high school students lack the literacy skills they need to succeed. What can educators do? In *Creating Literacy-Rich Schools for Adolescents*, authors Gay Ivey and Douglas Fisher make a compelling case that all teachers--across the content areas--have a role to play in students' development of literacy, which they define as reading, writing, speaking, listening, and viewing. Rather than focusing solely on reading instruction and the cliché that says "all teachers are teachers of reading," they urge teachers to incorporate rich literacy-based learning experiences into their classrooms, with the goal of helping students to learn and think across the curriculum. With research-based findings, engaging examples, and extensive lists of resources, Ivey and Fisher encourage readers to * Reexamine the materials, experiences, and expectations of the English/language arts classroom; * Use strategies to improve literacy in all the content areas and seek alternatives to the traditional textbook; * Make independent reading an

important part of students' ongoing literacy development; * Design and use interventions that really work for struggling students; and * Consider the schoolwide elements--professional development, peer coaching, leadership, and assessment--that should be in place to support teachers and students. Essential questions provide the focus for each chapter, and Quality Indicators for Secondary Literacy help readers gauge where they are on the continuum of providing a meaningful literacy experience for students. Creating Literacy-Rich Schools for Adolescents will inspire educators to take up this challenge in their own school with new confidence that the work is worthwhile and achievable. DIV In her entertaining and edifying New York Times bestseller, acclaimed author Francine Prose invites you to sit by her side and take a guided tour of the tools and tricks of the masters to discover why their work has endured. Written with passion, humour and wisdom, Reading Like a Writer will inspire readers to return to literature with a fresh eye and an eager heart – to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carré for a lesson in how to advance plot through dialogue and to Flannery O'Connor for the cunning use of the telling detail; to be inspired by Emily Brontë's structural nuance and Charles Dickens's deceptively simple narrative techniques. Most importantly, Prose cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading. /div

This popular text, now in its fourth edition, “unpacks” the various dimensions of literacy—linguistic and other sign systems; cognitive; sociocultural; and developmental—and at the same time accounts for the interrelationships among them. Distinguished by its examination of literacy from a multidimensional and interdisciplinary perspective, it provides a strong conceptual foundation upon which literacy curriculum and instruction in school settings can be grounded. Linking theory and research to practice in an understandable, user-friendly manner, the text provides in-depth coverage of the dimensions of literacy, includes demonstrations and “hands-on” activities, examines authentic reading and writing events that reflect key concepts, and summarizes the concepts in tables and figures. Changes in the Fourth Edition • Addresses academic language, new literacies/multiliteracies, and their relationship to literacy learning • More fully develops the developmental dimension of literacy in separate chapters on adult mediation and learner construction • Expands the discussion of multimodal literacies • Extends and integrates the discussion of bilingualism and biliteracy throughout the text • Integrates instructional implications more fully throughout

Literature for English is a five-book literature-based reading program for students who need to improve their basic English skills. Each book is packed with high-interest stories by famous writers covering varied genres such as folktale, science fiction, and autobiography. Selections in the Beginning- and Intermediate-level books are divided into a number of short, illustrated sections. Many of the chapters in the Advanced-level books contain theme-related stories and poems. Each section in the Student Book is followed by a comprehensive four-part skills check that is developed to meet the needs to LEP readers and is consistent with the general scope and sequence of ESL/ELT curricula. Student Books Each Literature for English student book follows a similar format. A pre-reading section, Getting Ready to Read, introduces each story. This section is divided into three parts: The Story and You, Learning About Literature, and Looking Ahead. It provides high-interest material to motivate the student to read the story and also offers important information about elements of literature. Each story is followed by a comprehensive four-part skills check. These activities contain hands-on practice in reading, writing, speaking, and listening. It includes the following exercises: Check Your Reading provides ten self-scoring multiple-choice questions that review reading comprehension, vocabulary, and idioms. A score chart at the end of the book graphically illustrates student progress. Understanding the Story contains a variety of exercises that use directed writing activities for mastery of reading comprehension, sentence structure, verbs, parts of speech, writing, and punctuation. Hints are provided to help students improve their grammar. Studying the Story activities provide opportunities for students to work together to improve their listening, speaking, and writing skills and contain specific as well as open-ended writing assignments and exercises.
