This is the first book systematically to analyze Kirk Douglas' and Stanley Kubrick's depiction of the slave revolt led by Spartacus from different historical, political, and cinematic perspectives. Examines the film's use of ancient sources, the ancient historical contexts, the political significance of the film, the history of its censorship and restoration, and its place in film history. Includes the most important passages from ancient authors' reports of the slave revolt in translation.

In 72 B.C., in the heart of Rome's Mediterranean empire, a slave named Spartacus ignited one of the most violent episodes of slave resistance in the history of the Roman Empire - indeed in the world annals of slavery. This volume organizes original translations of 80 Greek and Latin sources into topical chapters that look at the daily lives of slaves trained as gladiators and those who labored on farms in Italy and Sicily, including accounts of revolts that preceded and anticipated that of Spartacus. In a carefully crafted introductory essay, Shaw places Spartacus in the broader context of first and second century B.C. Rome, Italy and Sicily and explains why his story continues to be a popular symbol of rebellion today. The volume also includes a glossary, chronology, selected bibliography, three maps, an annotated list of ancient writers, and questions for consideration.

The best-selling novel about a slave revolt in ancient Rome and the basis for the popular motion picture.

Winner of the 2021 Wolfson History Prize "Black Spartacus is a tour de force: by far the most complete, authoritative and persuasive biography of Toussaint that we are likely to have for a long time . . . An extraordinarily gripping read." —David A. Bell, The Guardian A new interpretation of the life of the Haitian revolutionary Toussaint Louverture Among the defining figures of the Age of Revolution, Toussaint Louverture is the most enigmatic. Though the Haitian revolutionary's image has multiplied across the globe—appearing on banknotes and in bronze, on T-shirts and in film—the only definitive portrait executed in his lifetime has been lost. Well versed in the work of everyone from Machiavelli to Rousseau, he was nonetheless dismissed by Thomas Jefferson as a "cannibal." A Caribbean acolyte of the European Enlightenment, Toussaint nurtured a class of black Catholic clergymen who became one of the pillars of his rule, while his supporters also believed he communicated with voodoo spirits. And for a leader who once summed up his modus operandi with the phrase "Say little but do as much as possible," he was a prolific and indefatigable correspondent, famous for exhausting the five secretaries he maintained, simultaneously, at the height of his power in the 1790s. Employing groundbreaking archival research and a keen interpretive lens, Sudhir Hazareesingh restores Toussaint to his full complexity in Black Spartacus. At a time when his subject has, variously, been reduced to little more than a one-dimensional icon of liberation or criticized for his personal failings—his white mistresses, his early ownership of slaves, his authoritarianism—Hazareesingh proposes a new conception of Toussaint's understanding of himself and his role in the Atlantic world of the late eighteenth century. Black Spartacus is a work of both biography and intellectual history, rich with insights into Toussaint's fundamental hybridity—his ability to unite European, African, and Caribbean traditions in the service of his revolutionary aims. Hazareesingh offers a new and resonant interpretation of Toussaint's racial politics, showing how he used Enlightenment ideas to argue for the equal dignity of all human beings while simultaneously insisting on his own world-historical importance and the universal pertinence of blackness—a message which chimed particularly powerfully among African Americans. Ultimately, Black Spartacus offers a vigorous argument in favor of "getting back to Toussaint"—a call to take Haiti's founding father seriously on his own terms, and to honor his role in shaping the postcolonial world to come. Shortlisted for the Baillie Gifford Prize | Finalist for the PEN / Jacqueline Bograd Weld Award for Biography Named a best book of the year by the The Economist | Times Literary Supplement | New Statesman

"Alex North's life and work are the focus of this book. The first part deals with his early life growing up in Chester, Pennsylvania, and Philadelphia, his studies at Juilliard in New York and in Russia and Mexico, his early experiences in modern dance, documentaries, and theater, and his major work in film."

The Spartacus War is the extraordinary story of the most famous slave rebellion in the ancient world, the fascinating true story behind a legend that has been the inspiration for novelists, filmmakers, and revolutionaries for 2,000 years. Starting with only seventy-four men, a gladiator named Spartacus incited a rebellion that threatened Rome itself. With his fellow gladiators, Spartacus built an army of 60,000 soldiers and controlled the southern Italian countryside. A charismatic leader, he used religion to win support. An ex-soldier in the Roman army, Spartacus excelled in combat. He defeated nine Roman armies and kept Rome at bay for two years before he was defeated. After his final battle, 6,000 of his followers were captured and crucified along Rome's main southern highway. The Spartacus War is the dramatic and factual account of one of history's great rebellions. Spartacus was beaten by a Roman general, Crassus, who had learned how to defeat an insurgency. But the rebels were partly to blame for their failure. Their army was large and often undisciplined; the many ethnic groups within it frequently quarreled over leadership. No single leader, not even Spartacus, could keep them all in line. And when faced with a choice between escaping to freedom and looting, the rebels chose wealth over liberty, risking an eventual confrontation with Rome's most powerful forces. The result of years of research, The Spartacus War is based not only on written documents but also on archaeological evidence, historical reconstruction, and the author's extensive travels in the Italian countryside that Spartacus once conquered.

Howard Fast's bestselling coming-of-age novel about one boy's introduction to the horrors of war amid the brutal first battle of the American Revolution On April 19, 1775, musket shots ring out over Lexington, Massachusetts. As the sun rises over the battlefield, fifteen-year-old Adam Cooper stands among the outmatched patriots, facing a line of British troops. Determined to defend his home and prove his worth to his disapproving father, Cooper is about to embark on the most significant day of his life. The Battle of Lexington and Concord will be the starting point of the American Revolution—and when Cooper becomes a man. Sweeping in scope and masterful in execution, April Morning is a classic of American literature and an unforgettable story of one community's fateful struggle for freedom. This ebook features an illustrated biography of Howard Fast including rare photos from the author's estate.

This book presents a history of spiritual exercises from Socrates to early Christianity, an account of their decline in modern philosophy, and a discussion of the different conceptions of philosophy that have accompanied the trajectory and fate of the theory and practice of spiritual exercises. Hadot's book demonstrates the extent to which philosophy has been, and still is, above all else a way of seeing and of being in the world.
