The book consists primarily of interviews between Strobel (a former legal editor at the Chicago Tribune) and biblical scholars such as Bruce Metzger. Each interview is based on a simple question, concerning historical evidence (for example, "Can the Biographies of Jesus Be Trusted?"), scientific evidence, ("Does Archaeology Confirm or Contradict Jesus' Biographies?"), and "psychiatric evidence" ("Was Jesus Crazy When He Claimed to Be the Son of God?"). Together, these interviews compose a case brief defending Jesus' divinity, and urging readers to reach a verdict of their own.

Practical help for understanding and following God's will for your life. "God has a plan for our lives," but what does that mean in practical terms? How do we know God's will for important life decisions, like who to marry, what job to take, what church to join? How can we be free if God has a perfect plan for us? Does suffering mean we are off track? How exactly does God speak? Author Jerry Sittser explores these questions and offers a biblically based approach that is truly liberating. No matter what decisions we've already made, he points out that it is still possible to live out God's perfect will--even if we think we've married the wrong person, chosen the wrong career, or landed in some kind of serious trouble. This new edition includes study questions designed to help individuals or groups who are faced with decisions--large or small.

Who Was Jesus? A good man? A lunatic? God? There's little question that he actually lived. But miracles? Rising from the dead? Some of the stories you hear about him sound like just that--stories. A reasonable person would never believe them, let alone the claim that he's the only way to God! But a reasonable person would also make sure that he or she understood the facts before jumping to conclusions. That's why Lee Strobel--an award-winning legal journalist with a knack for asking tough questions--decided to investigate Jesus for himself. An atheist, Strobel felt certain his findings would bring Christianity's claims about Jesus tumbling down like a house of cards. He was in for the surprise of his life. Join him as he retraces his journey from skepticism to faith. You'll consult expert testimony as you sift through the truths that history, science, psychiatry, literature, and religion reveal. Like Strobel, you'll be amazed at the evidence--how much there is, how strong it is, and what it says. The facts are in. What will your verdict be in The Case for Christ?

Explains in plain terms such issues for Christians as the existence of evil, miracles, the meaning of Jesus, the validity of other religions, and religious doubt, and suggests reasons why the Bible should be believed about these matters.

'My road to atheism was paved by science . . . But, ironically, so was my later journey to God.' ---Lee Strobel During his academic years, Lee Strobel became convinced that God was outmoded, a belief that colored his ensuing career as an award-winning journalist at the Chicago Tribune. Science had made the idea of a

Creator irrelevant---or so Strobel thought. But today science is pointing in a different direction. In recent years, a diverse and impressive body of research has increasingly supported the conclusion that the universe was intelligently designed. At the same time, Darwinism has faltered in the face of concrete facts and hard reason. Has science discovered God? At the very least, it's giving faith an immense boost as new findings emerge about the incredible complexity of our universe. Join Strobel as he reexamines the theories that once led him away from God. Through his compelling and highly readable account, you'll encounter the mind-stretching discoveries from cosmology, cellular biology, DNA research, astronomy, physics, and human consciousness that present astonishing evidence in *The Case for a Creator*. Also available in mass market and audio CD editions.
