People react very differently to the process of ageing. Some people shy away from old age for as long as they can and eventually spend it reflecting on times when they were physically and mentally stronger and more independent. For others old age is embraced as a new adventure and something to look forward to. In this book psychoanalyst Danielle Quinodoz highlights the value of old age and the fact that although many elderly people have suffered losses, either of their own good health or through bereavement, most have managed to retain the most important thing – their sense of self. Quinodoz argues that growing old provides us with the opportunity to learn more about ourselves and instead of facing it with dread, it should be celebrated. Divided into accessible chapters this book covers topics including: the internal life-history remembering phases of life anxiety about death being a psychoanalyst and growing old. Throughout Growing Old the author draws on both her clinical experience of working with the elderly, and her own personal experience of growing old. This makes it an interesting read for both practising psychoanalysts, and those who wish to gain a greater insight of the natural progression into later life.

Stephen Gilligan and Robert Dilts truly take you on a voyage of self-discovery. The Hero's Journey examines the questions: How can you live a meaningful life? What is the deepest life you are called to, and how can you respond to that call? It is about how to discover your calling and how to embark on the path of learning and transformation that will reconnect you with your spirit, change negative beliefs and habits, heal emotional wounds and physical symptoms, deepen intimacy, and improve self-image and self-love. Along this path we inevitably meet challenges and confronting these challenges forces us to develop and think in new ways and

push us outside our comfort zone. The book takes the form of a transcript of a four day workshop conducted by Stephen and Robert. It is a powerful way of learning as you are so absorbed by the experiences of the participants that you feel you are actually there. A wonderful voyage of discovery for everyone who thinks that, "there must be more to life than this".

In April of 2006, Olga Munari was at the end of her rope. Unhappy with her life and her marriage, Olga confessed to her personal trainer that she wished something bad would happen to her as a means to create change in her life and her relationship. The following Monday, she was diagnosed with breast cancer. Kim Mecca narrates the moving story of how Olga bravely faced a life-threatening diagnosis and used it as an opportunity to create a sacred bond with her children, adopt a positive attitude, and give back to others. As Olga began her journey through surgery and subsequent treatment, she soon discovered that her healing was not only physical, but also emotional. She learned to create joy from her immense challenges. As Mecca details Olga's dedication to fundraising, her decision to not change her life because she had cancer, and her devotion to her family, she provides an unforgettable glimpse into all the ways Olga walked through the darkness of her disease and into the light of healing. The Joy of Cancer tells the inspiring story of how one woman used her breast cancer diagnosis to slowly transform, break free of her cocoon, and become the beautiful butterfly she was always meant to be.

Success coach Julie Fuimano began her quest for self-development in her teens, as many do.

She asked herself the same universal questions: Who am I?, Why am I here?, and What am I supposed to do with my life? After spending years looking outside herself for the answers, she realized that only by looking within to get to know and accept who she is would the answers then be revealed. That was the first step in her journey to self-discovery and acceptance. Inspired to help others create the same meaning in their own lives, she wrote *The Journey Called YOU: A Roadmap to Self-Discovery and Acceptance*. It teaches the importance of learning how to reveal the essence of who you are so you can more deeply enjoy the unique gifts you have been given.

Self-discovery begins with desire to understand more about what makes us tick, to break from routine, to heal a hurt, to express ourselves in new ways, to explore our hopes and dreams. Identifying the objects of our desire is important, since our focus has great impact on our attitude and self-awareness, which in turn are directly related to our happiness. In *The Me Book: A Journey of Self-Discovery*, author, healer, and life coach Jane Marin shows us how to use the combined art forms of journaling, painting, scrapbooking and collage to increase self-knowledge and self-confidence and improve our lives on physical, emotional and spiritual levels. Marin developed the idea of *The Me Book* while researching her family's history and coming to the realisation of how rewarding it was to discover more about her history and record her own life as well. She realised that using creativity in expressing herself was therapeutic and healing, bringing forth all her positive energies. Marin unearthed the history of the real her, which gave way to life changes both large and small, changes that immediately increased her self-esteem, her health and her perception of her life's purpose. These are changes any of us

can make. All we need are the motivation to begin the journey and the desire to create something truly worthwhile something like our own true life.
