fiction, marvels and madness, is slowly unraveling because her family is coming apart before her eyes. Now eight-year-old Grace must choose between her two very different, very flawed parents, a choice that will take her on a dizzying journey, away from her home in Vermont to the boozy, flooded streets of New Orleans--and into the equally wondrous and frightening realm of her own imagination. With eloquence and compassion, Jenny Offill weaves a luminous story of a wounded family and of a young girl yearning to understand the difference between fiction, fact, and hope. A novel of vibrant imagination and searing intelligence, *Last Things* is a stunning literary achievement.

After the American presidential election of 2016, Jenny Odell felt so overstimulated and disoriented by information, misinformation, and the expressions of others, that reality itself seemed to slip away. *How To Do Nothing* is her action plan for resistance. Drawing on the ethos of tech culture, a background in the arts, and personal storytelling, Jenny Odell makes a powerful argument for refusal: refusal to believe that our lives are instruments to be optimised. She argues that nothing can be quite so radical as doing... nothing.
