The world offers fantastic experiences and human encounters in new environments; these are lifes highlights. In My Impressions, author Frank Olsson captured many special moments during his worldwide travels and now shares these in this memoir and travelogue. A collection of twenty-nine notes on life and travel, the events take place in Asia, the United States, Europe, and New Zealand. The vignettes describe the locations and experiences with a light and positive approach, reflecting Olssons appreciation for his rich life. Meet the cab driver in New York; have a drink at the Wells Tavern; tour Petoskey, Michigan; stroll the streets of Milano; and relax on the beach at Waikiki. Filled with vivid descriptions of people and surroundings, and interspersed with tidbits of local history, My Impressions showcases Olssons wide array of experiences during his international travels in the banking industry. The writings highlight Olssons openness to new people and new situations, and underscores the philosophy that deep and genuine friendships can be made anywhere in the world.

LOOKING FOR TROUBLE: Mark Dalton isn't sure if he finds trouble or if trouble finds him. But ever since his wife traded him in for a prettier model, and he traded in his Private Eye business for a Peterbilt, it seems to be everywhere he goes. In this collection of loosely interwoven who-dunnits, Edo van Belkom introduces Mark Dalton, Trucker Detective. Whether he's scooping up pretty hitchhikers with secrets, getting back goods stolen right out from under his nose, making a shady repair shop pay, or solving a racially charged, post-9/11 murder, Dalton is one busy trucker. And truth is, he wouldn't have it any other way.

Electrical Engineer's Reference Book, Fourteenth Edition focuses on electrical engineering. The book first discusses units, mathematics, and physical quantities, including the international unit system, physical properties, and electricity. The text also looks at network and control systems analysis. The book examines materials used in electrical engineering. Topics include conducting materials, superconductors, silicon, insulating materials, electrical steels, and soft irons and relay steels. The text underscores electrical metrology and instrumentation, steam-generating plants, turbines and diesel plants, and nuclear reactor plants. The book also discusses alternative energy sources. Concerns include wind, geothermal, wave, ocean thermal, solar, and tidal energy. The text then looks at alternating-current generators. Stator windings, insulation, output equation, armature reaction, and reactants and time-constraints are described. The book also examines overhead lines, cables, power transformers, switchgears and protection, supply and control of reactive power, and power systems operation and control. The text is a vital source of reference for readers interested in electrical engineering.

Lewis Hamilton's explosive arrival on the Formula 1 scene has made front-page headlines. In My Story, for the first time Lewis opens up about his stunning debut season, including the gripping climax to the 2007 F1 World Championship, as well as his dad Anthony, his home life and his early years. The only book with the real story, as told by Lewis.

Practical rules and strategies designed to protect electronic systems from damage by transient overvoltages include symptoms and threats, remedies, protective devices and their applications, and validation of protective measures. 1989 edition.

Create Buzz, Attract Referrals and Generate Loyalty by genuinely connecting with people and becoming a master networker. Plus: Forget about the 30 Second Elevator Pitch Forever The old clich, Its not what you know; its who you know is as true today as ever before. The more connected you are, the more successful you will be. There is no doubt that networking is essential, but why does it work for some, but so far, it hasnt worked for you? Youre told to get out there to meet people so you can make more money or find your next great job, but HOW do you get started? WHERE do you go? Once youre there, WHAT do you do so youre not just collecting a stack of business cards? Whether you want to expand your circles of influence, increase your sales, raise money for charity or elevate your personal or business profile in the community, Allison Grahams step by step formula gives you realistic, tangible action plans to accomplish your goals. Packed with proven strategies, this book will teach you concrete tools and expert principles including; 7 Steps to Elevated Networking Confidence , 5 Step Mingling Formula and the 5 10 15 Second Communication . Youll learn how to build and strengthen relationships with current and potential clients using a unique, straight forward approach that will have you saying, OKAY, I finally get it.

Designed for clinicians who require both an overview of anxiety disorders and guidelines on their treatment, this manual explores many contemporary research findings and describes various forms of treatment.
