Almost all fabrications are now a days done by the use of welding and the allied processes which include soldering, brazing, braze welding, and adhesive bonding. The selection of process in a given situation depends upon the material to be joined, its thickness and the joint strength required.

Welding Technology and Procedures | SpringerLink
Book Description. The aim of this book, Welding Processes And Technology , is to provide comprehensive knowledge about the vital field of fabrication including welding, brazing, soldering, adhesive bonding, surfacing, metal spraying and thermal cutting. Apart from giving a survey of all the welding and allied processes, it describes in detail the industrially important welding processes including arc welding, gas welding, resistance welding, solid state welding, electron beam welding and ...
